BIG SHIPS IN STORM

U. S. War Vessels Tossed Like Corks In Teeth of Gale.

TWO MEN LOST THEIR LIVES

Lieutenant John H. Furse, of Savannah, Ga., of the Battleship Illinois, Was One of the Men Who Lost Their Lives.

Boston, Oct. 2.—Wireless dispatch. es received from the Atlantic squadron anchored at the head of Cape Cod bay, off the Barnstable shore, show that two lives were lost, two vessels damaged and the entire fleet given a severe shaking up in the storm which was raging in the bay.

The fleet was anchored on a lee shore and only the strength of the ground tackle saved some of the big war vessels from being thrown on the beach.

Those who lost their lives were Lieutenant John H. Furse, of the battleship Illinois, and an ordinary seaman of the battleship Minnesota. The refrigerator ship Glacier dragged her anchor and collided with the cruiser Des Moines, necessitating the sending of both vessels to the Charlestown navy yard for repairs.

More than twenty hours the great ships were tumbled about in the big seas which surged into the bay.

Lieutenant Furse was thrown up against a hatchway on the Illinois and so badly injured that he died during the night. A seaman on the Minnesota was washed overboard and drowned, while nearly every vessel had some of her crew bruised by being hurled about the ship.

Lieutenant Furse, 27 years old, was a native of South Carolina, but appointed to the naval academy from Georgia

Relatives Hear News of Death.

Savannah, Oct. 2.—Savannah relatives were shocked when they received notice of the death of Lieutenant John H. Furse, of the United States navy, at Boston.

The young lieutenant was a son of Mr. and Mrs. S. S. Furse, of this city. He was to have been married this fall to Miss Bertha Batchellor, daughter of Mr. and Mrs. Albert Stillman Batchellor, of Littleton, N. H. The body is to be brought to Savannah for interment.

RAINBOW AT NIGHT.

Phenomenon Witnessed by Passengers on Steamer Minnehaha.

New York, Oct. 2.—The Atlantic transport liner Minnehaha, just in from London, brought to port a story of having seen a rainbow at night.

Captain Robinson and a score of passengers vouched for the truth of the story.

H. W. Scovil, a retired merchant of Newburyport, Mass., said that the rainbow appeared just before midnight on Wednesday. All that day there had been occasional showers. Toward evening there was a clearing, but at night a mist settled down over the water.

"Along about midnight" said Mr. Scovil, "a peculiar half circle of colored light appeared in the west. Both ends touched the sea, and although not as visible as the rainbow we see in the daytime, it was clearly defined and was a beautiful sight."

The phenomenon remained in view 20 minutes and finally faded away.

Dropped Dead.

Kansas City, Oct. 2.—With the final words of the opening hymn which he was singing with his Sunday school class, "God Be With You Till We Meet Again," upon his lips, Frank B. Mitchener, a prominent real estate man of this city, dropped dead at the Second Presbyterian church. Mr. Mitchener was 51 years of age.

Strike of Book Binders.

New York, Oct. 2.—A number of strikes of book binders belonging to the International Brotherhood of Book Binders will take place in several cities, including New York, Chicago and Boston, for the enforcement of the eight hour work day.

PRESIDENT STARTS SOUTH.

Given Ovation Everywhere He Appeared on the Route.

Keokuk, Iowa, Oct. 2.—From 6 o'clock Tuesday morning when the president was awakened at the small Illinois town of Meridosia by the strains of a village band, he was seldom out of hearing of a cheer of some kind from the country people as well as the villagers lining the roadway and all were in a cheering mood.

President Roosevelt did not, however, respond to any of the many calls for speeches. His train arrived here at 9:10 o'clock and was met at the depot by the governors of Iowa, Florida, Louisiana, Minnesota, Nebraska, both Dakotas, Oregon, Wyoming, Illinois and three companies of militia.

The morning was fair, but a light rain began shortly after the party started in carriages to Rand park, where speeches were delivered.

Following the address, which was heard by 20,000 people, the president was driven to the lower lock of the government canal and boarded the steamer Mississippi for the trip south. He reviewed the display of one hundred pleasure launches in the river, and departed leading the floatilla of 20 big steamboats and the little launches.

The president was presented while here with a gold headed cane by Keokuk negroes. He boarded the boat at 11 o'clock and left shortly before noon amidst the greatest display of boats ever seen on the upper Mississippi river.

STRUCK BY HUGE ROCK.

Man Standing Five Hundred Yards from Blast Fatally Injured.

Cleveland, Ga., Oct. 2.—While putting a cut through a rock at the Canadian-American Loud Gold mines a piece of rock weighing 14 pounds was carried a distance of 425 yards up a side hill by a dynamite explosion and struck Ernest Wofford, an employee at the mine and who lives on a farm adjoining the mine, on the back of his shoulders, dislocating his right shoulder and cutting him up badly. He also received a severe puncture on the right lung.

Dr. Underwood, of Cleveland, and Dr. Head, of Dahlonega, were immediately summoned, but there seems to be very little hope of Wofford's recovery. He is a young man only married a few months ago and has a young wife and his mother dependent on him.

It is stated that Wofford was warned fully seven minutes before the explosion, but did not think there was any danger where he stood. Had he stood still, instead of running after seeing the stone coming, he would have escaped.

Rich Gold Deposits Found.

Cleveland, Ga., Oct. 2.—The Canadian-American Loud gold mines have been prospecting extensively from their 4,000 acres recently purchased from R. K. Reeves, of Athens, and W. H. Courtenay, of Cleveland, and have struck some very rich veins, pockets and placers. This is the Loud mine where Mr. Reeves found 12 pounds of gold in one pocket and nuggetts of all descriptions, weighing as high as 2 pounds, some of which were very valuable specimens. Many smaller pockets and rich stringers have been struck.

Cotton Spinners Entertained.

New York, Oct. 1.—Fifty-one representatives of foreign cotton manufacturers, who are to take part in the conference of cotton growers, spinners and manufacturers to be held at Atlanta on Oct. 7, 8 and 9, have already arrived here and are being entertained by representatives of the trade here. Seventy additional foreign delegates are expected here before the week is over.

$7,000,000 Custom House.

New York, Oct. 2.—The new seven million dollar custom house in Bowling Green, which has been seven years in building, was taken off the hands of the contractors Tuesday. It is practically completed. However, the collector of the port, who will have the principal offices, probably will not be quartered there much before the end of this month.

BLEW UP EX-SHERIFF

Outrage Perpetrated In Oregon by Unknown Parties.

LIKE STEUNNENBURG AFFAIR

As Former Sheriff Brown Was Entering His Front Gate, Bomb Was Exploded, Blowing Off His Leg and Otherwise Maiming Him.

Baker City, Oreg., Oct. 2.—An attempt was made at 10:30 o'clock on Monday night to assassinate former Sheriff Harvey K. Brown at his home in this city by blowing him up with a dynamite bomb.

Mr. Brown is in the hospital, in a critical condition.

One of his legs was blown off, one of his arms badly mutilated, besides internal injuries, caused by the concussions.

The outrage is similar in manner of execution to that which resulted in the death of former Governor Frank Steunenberg at Caldwell, Idaho.

Mr. Brown was returning home and as he opened his gate the bomb exploded, wounding Mr. Brown and blowing out the windows of his house.

The explosion was heard in the center of the town half a mile away. The chief of police and county authorities are wholly unable to fathom any cause for the deed and they are also wholly unable to obtain any clew to the perpetrator of the crime.

Lay in Wait for Victim.

Portland, Oreg., Oct. 2.—A special from Baker City, Oreg., says:

Ex-Sheriff Brown, who was dynamited Monday night and just returned from a trip out of town to some mining property. He was found lying on the sidewalk several feet from the gate, the large posts were found blown to pieces and the fence shattered for some distance. The perpetrators left no trace of their deed except a wire which extended about 25 feet north along the fence and then went west about 30 feet to the middle of the road. It is presumed that the assassins were lying in wait for Mr. Brown and pulled the wire as he entered the gate.

Immediately after the explosion a neighbor of Mr. Brown's heard some men running north from the direction of the Brown house. It is thought that Mr. Brown had some idea of the identity of the assassins.

Mrs. Brown is prostrated by the shock, and the physicians fear she will not recover.

Mr. Brown, while sheriff of Baker county, was diligent in enforcing the law against saloon men and gamblers.

WAR IN TEXAS TOWN.

Gov. Campbell Asked for Rangers to Prevent Further Trouble.

Henderson, Tex., Oct. 2.—Two men have been killed and the town of Tatum, Tex., a small town near here, is in such a state of excitement the outgrowth of a dispute between Cashier Hemby of the Tatum State bank, and Sam Helverston, the local freight agent, Saturday afternoon, that an appeal has been forwarded to Governor Campbell, asking that Rangers be sent to prevent further trouble.

The trouble originated in a controversy regarding the payment of a freight bill. Revolvers were drawn, and in a street battle Hemby was fatally wounded. Friends of the principals involved divided into factions and Monday a man named Adam was killed.

Suffers No More.

ACCIDENT ON THE 'FRISCO.

Fast Passenger Train Wrecked—Two Persons Were Killed.

St. Louis, Oct. 2.—The fast train on the 'Frisco road known as the Meteor, due in St. Louis at 11:30 a. m., was derailed and wrecked near Dixon, 135 miles southwest of St. Louis, at 1 o'clock Monday morning and, according to official advices received at the 'Frisco general offices here, two persons were killed and one seriously injured.

The dead:

Engineer Chambers, of Springfield, Missouri.

Mail Clerk Frank E. Crissy, of St. Louis, Mo.

Seriously injured: Fireman Stockstill.

The engine and forward portion of the train overturned, the cars taking fire and being consumed.

An appeal for assistance was sent to Rolla, 25 miles east of the scene, and a special train bearing physicians and nurses and fire fighting apparatus was sent from there.

Dixon Hill is a steep grade sixteen miles in length, and the engine jumped the track while speeding down the grade, tearing up a section of the track and ditching several cars. The cause of the derailment has not been learned.

Two Mail Clerks Injured.

St. Louis, Mo., Oct. 2—Official advices to the headquarters of the 'Frisco system here state that two mail clerks were injured, two locomotives demolished and a number of head of cattle killed in a collision near Anaconda, Mo., between a southbound passenger train and a freight.

PROHIBITION VICTORY.

Tuscaloosa Goes Dry.

Tuscaloosa, Ala., Oct. 2.—Fifteen out of twenty-eight precincts have been heard from here and so far the prohibition movement is 443 ahead. The city of Tuscaloosa gave the dispensary 120 majority, while North Port, just across the river, gave prohibition 84 majority. Only two beats out of the number heard from have given the dispensary a majority. It is estimated that the dispensary will be defeated by from 600 to 700 majority.

Traffic in Chaotic Condition.

Savannah, Ga., Oct. 2.—Traffic on the Seaboard Air Line west of Savannah Sunday was in a chaotic condition, because of washouts and the interruption of telegraphic communications by the heavy storm of Saturday night. Trains to and from Savannah were annulled, and every energy was bent by the officials to getting the roadway in repair.

The Southern railway, too, is reported to have sustained washouts on its line from Helena to Brunswick, though it did not suffer nearly to the extent of the Seaboard Air Line.

Mistrial in Hale Case.

SCHOOL TO OPEN MIDDLE OF MONTH

Superintendent Kelley Promises to Begin Term on 14th Inst.

TROUBLE TO GET A TEACHER

Whom the Superintendent Deems the Capable Person to Fill Position as Principal—None But First-Class Instructor Will Be Accepted.

While the majority of schools of the county opened with regularity on Monday, the 30th ult., through the misfortune of being without a principal it became necessary to postpone the opening of the Gainesville Graded and High School, with the result that there were a number of disappointed patrons and ambitious students. This delay, however, could not be remedied, as Prof. Tom McBeath's successor could not be secured in the short time intervening and the date for the regular beginning of the school term.

Superintendent Kelley states, however, that the school will open not later than Monday, the 14th inst., and assures the public that arrangements will be made to secure a first-class and capable man to take the principalship by that time.

As has been stated before, Prof. McBeath, at almost the last moment, was tendered a position as dean in the Mississippi State College for Women at a much more lucrative salary than he was receiving here, and his acceptance of same left the principalship of this school vacant, and inasmuch as Superintendent Kelley would have none but a first-class instructor to succeed him, there has been some trouble, which caused the delay. Dr. Kelley states positively, however, that the school will open not later than the 14th, and will open in first-class shape.

The patrons of the Gainesville Graded and High School, realizing Superintendent Kelley's position, and realizing the extra efforts he is making to secure a teacher, are bearing with him in patience.

NEWS OF CITY AND COUNTY CONDENSED

Dr. A. E. Carter of Micanopy was among those who spent yesterday in this city, having come on business.

C. B. Weeks of Newberry, salesman in the store of Tucker & Roland, was a business visitor to this city yesterday.

Superintendent J. B. Cutler of the Tampa and Jacksonville railroad has returned from an official visit to Palatka.

Miss Mira McMillan has returned from New York, where she has been visiting her sister, Mrs. Chas. F. Smith, for the past few months.

There will be an ice cream supper and dance at Will Tucker's at Rochelle on the evening of October 4th for the piano fund. Everybody cordially invited.

J. K. Tuten, a prominent merchant of Archer, was transacting business in this city yesterday. Mr. Tuten reports an abundance of rain in his section recently, which has had a tendency to injure the cotton crop materially, as the fields were white with the budding staple with no means of harvesting the output, as labor in the cotton fields is very scarce.

Dr. Lucretia Robb expects to return today after an absence of several weeks, during which time she has been in attendance upon lectures and clinics in Chicago and Denver, also visiting hospitals in these cities. A week was spent at the Battle Creek Sanitarium, which institution needs no introduction to the Gainesville people. Needless to say, Dr. Robb's friends and patrons will extend her a cordial welcome.

The Georgia State Fair will be held at Atlanta, Ga., October 10th to the 26th. The date of sale for these tickets will be from October 10th to October 25th inclusive. Parties in the State of Florida who desire to take this trip can get rates either from Jacksonville or Live Oak at the very much reduced rate of $8.85 from Live Oak and return, or $10.35 from Jacksonville and return. Final limit of the tickets is not later but up to midnight of October 28th. These tickets entitle party's admission to the grounds. For further and detailed information, write to Frank C. Boylston, District Passenger Agent, Atlantic Coast Line, Jacksonville, Fla.

IRA CARTER'S MISFORTUNE.

Ankle Was Severely Sprained as Result of a Runaway Monday.

Ira J. Carter, one of Newberry's well-known young citizens, was a visitor to Gainesville Wednesday.

Mr. Carter seems to be a creature of misfortune, as far as receiving injuries by runaways, in concerned. A few months ago, in a runaway, he sustained a broken leg by being thrown from his buggy, which caused his confinement for several weeks. He was the victim of another runaway Monday, and in jumping from the vehicle in which he was riding one of his ankles was severely sprained.

Mr. Carter owns a fine farm midway between Newberry and Gainesville, and on this occasion was taking three double teams to the farm from Newberry to assist in harvesting his crop. In some manner the rear team became frightened and unmanageable, causing the teams in front to run away, and demolishing two wagons. Mr. Carter was leading the trail in a buggy, when one of the teams ran into the vehicle, upsetting it and frightening his horse.

THE BERACA SOCIETY.

Delightful Reception Held at White House Well Attended.

The Beraca Society of the First Methodist church entertained a large number of friends at the White House Tuesday evening, the occasion being a reception in honor of the faculty and students of the University of Florida. All Methodists over the age of sixteen were invited, however, with the result that, including the faculty and students of the University, there were nearly two hundred present.

The evening passed in a most enjoyable manner, a delightful informal program having been carried out. Delicious refreshments of fruit puch and assorted cake were served, and altogether the occasion was one which will long be remembered by those who were so fortunate as to be there.

Wanted—Hardwood Timber.

The Brown-Jennings Hardwood Company of Lake Butler, Florida, are in the market for large quantities of hickory, white oak and ash timber.

They offer to buy it either in the log or sawed into plank. Now that the price of pine is off, this is an opportunity for sawmills to work on timber in which there is a profit, as we are offering fancy prices for such timber. This also affords the timber men who are equipped with teams, a chance to get out logs at a good figure.

Collection of Licenses.

County Tax Collector W. D. Dickinson and City Tax Collector T. B. Ellis have been kept busy for the past two days collecting occupational taxes for the coming year and issuing receipts.

Collector Ellis states that he is experiencing less trouble in making collections this year than at any time since he has been in office. The people seem to pay with a willingness, which is indicative of the fact that they are prosperous and have no complaint to make.

New School House.

C. C. Fletcher, a successful contractor of Bell, was in the city Tuesday on business connected with the school board.

Mr. Fletcher has just completed a nice school building for Suwannee school, in the West End, which would do credit to a much larger district. The patrons and trustees were well pleased with the building.

Trixie Friganza in Train Wreck.

Cincinnati, Ohio, Oct. 2.—A special passenger train from Cleveland, on the Baltimore and Ohio, carrying the members of "The Orchid" theatrical company, ran into the rear end of a freight train near here and as a result several members of the company were injured, but none seriously. Neither Eddie Foy nor Trixie Friganza were injured in any way, and the smashup did not even awaken Mr. Foy.

"JUST FROM GEORGIA"

F. L. S. in Atlanta Constitution.

A Breeze from Billville.

The moonshine stills have moved six miles further from town, and the walking is so bad in wet weather!

The Billville brethren are not counting the days till January, but they're storing barrels of joy in which they may be able to ride the deluge.

We don't care about Wall street. We live at home in this section, and we're the boss of it—when there's no one else in the house.

Billville will not be in the Presidential race. It's about all we can do down this way to keep two miles ahead of our tribulations.

Adam and the First Baby.

In "The Stork Book" Newton Newkirk gives this picture of Adam, when he discovered the first little stranger in the house:

"Who left that here?" he demands, with a darkening brow, as he contemplates this vest-pocket edition of himself.

"The Stork, Adam dear—isn't he the cunning little thing?"

"The Stork!—hush!—what with the crows pulling up my corn in the spring, and the stork leaving things like this around the house in the fall," says Adam, "my life is getting to be a good deal of a burden!"

BETTER THAN MEDICINE.

Breathe Hyomei's Tonic Healing and Be Cured of Catarrh.

Nature has a remedy for catarrh, a treatment that is far better than dosing the stomach with medicine.

It is the healing oils and balsams of Hyomei which medicates the air you breathe, reaching the most remote air cells in the nose, throat and lungs, killing all catarrhal germs, and restoring health to the mucous membrane.

In using Hyomei you are treating your catarrhal troubles with the only natural remedy, for it gives a curative air bath to the air passages that has as powerful healing and antiseptic effect as that found in the mountains where the pine forests give off their fragrant and healing balsams.

Breathe the invigorating and healing Hyomei and see how quickly you will get relief from your catarrhal troubles. J. W. McCollum & Co. see so many cures, even of the worst cases of catarrh, with offensive breath, raising of mucous, frequent sneezing, dropping in the throat and spasmodic coughing, that they feel warranted in selling Hyomei under an absolute guarantee to refund the money if it does not do all that is claimed for it. They will take all the risk.

MOURNERS IN PANIC.

Supposed Dead Woman Climbs Out of Her Coffin.

Wheeling, W. Va., Oct. 2.—Relatives of Mrs. Fred Hartsell, wife of a farmer of Huntington, were bemoaning her death over the coffin a few minutes before the minister arrived to conduct the funeral rites, when she suddenly rallied and with a dazed look, climbed out of the coffin.

There was a rush of mourners for the open air, windows being used as exits. They were terror-stricken, and the minister swooned when a pale-faced woman over whose remains he was called to conduct services, met him at the door. The family was too poor to have a physician, and the woman fell into a swoon, in which she remained three or four days. Her husband thought her dead and sent for the undertaker.

Danger of a Strike Averted.

New York, Oct. 2.—All danger of a strike of the marine engineers on the ocean and coastwise steamship lines whose vessels sail from this port bearing the American flag has been averted. The demands, which were to go into effect Tuesday were for an increase in wages averaging 10 per cent and a number of rules governing over time. It was declared last evening by representatives of both the companies and the men that a satisfactory arrangement had been reached.

IN MEMORIAM.

Beautiful Tribute Paid to Judge Stringfellow by Brother Masons.

Whereas, is has pleased Almighty God to remove from this life our friend and brother, Judge R. H. Stringfellow, and

Whereas, His untimely demise has cast sorrow over the entire community, a sorrow felt, indeed, by everyone who knew him, and

Whereas, We feel that in his death, the Masonic Fraternity, the State, the county and the community, have lost one of their best and most high-toned citizens; one in whom there was no guile; a man in whose bosom there pulsated sympathy and love for the whole human race; a man that even a little child could approach with impunity.

His was a noble life, full of generous acts.

He was never happier than when giving comfort and consolation to others.

His ever ready smile and cordial grasp of the hand, his patient face, his sympathetic eyes, we shall truly miss. He had, for years, been an intense sufferer, with neuralgia; yea, he suffered always, and at times, untold agonies; but he bore it without a murmur.

He was sixty-three years old and was a Mason for forty-one years.

He dearly loved the order, and was prominent in the administration of its affairs.

He was an officer during the greater part of the forty-one years of his connection with the order, and his death is a disitnct loss to the Masonic fraternity.

Desiring, even in an humble way, to pay a tribute of respect to his memory, we, the members of Hawthorn Lodge No. 103, F and A. M.,

Resolved: First, That we tender, to the family and relatives of our beloved brother, our most profound sympathy and condolence. We would point them to his spotless life, a rich heritage, indeed, and to the Great Architect of the universe, who in taking our brother to Himself, has only called him from labor to refreshment.

Resolved, Second, That these resolutions be spread upon the minutes of the lodge and that a copy be given to the family of our brother.

Resolved, Third, That a copy of these resolutions be sent The Gainesville Sun for publication.

Alas! our Brother, Alas! We shall never more behold thy face on this troubleus earth, but with the hosts, eternal, who have joined the choir, innumerable, we shall meet thee and there with thee abide, in the lodge of the Most High God, not made with hands, eternal in the heavens.

JNO. D. TEETER, Secretary.

Card of Thanks.

We wish, by the kindness of the editor and through the columns of The Sun, to express our heart-felt thanks and our appreciation to our many friends of Newberry and surrounding country for the aid, comfort and sympathy they showed us in the time of trouble and sorrow over the illness and death of our darling little son, Willis Littleton, who passed away Sunday morning, Sept. 29, 1907.

Sincerely,

MR. AND MRS. J. W. WILSON.

A Square Deal

Be assured you when you buy Dr. Pierce's family medicines—for all the ingredients entering into them are printed on the bottle-wrappers and their formulas are attested under oath as being complete and correct. You know just what you are paying for and that the ingredients are gathered from Nature's laboratory, being selected from the most valuable native medicinal roots found growing in our American forests and while potent to cure are perfectly harmless even to the most delicate women and children. Not a drop of alcohol enters into their composition. A much better agent is used both for extracting and preserving the medicinal principles used in them, viz.—pure triple-refined glycerine. This agent possesses intrinsic medicinal properties of its own, being a most valuable antiseptic and antiferment, nutritive and soothing demulcent.

Glycerine plays an important part in Dr. Pierce's Golden Medical Discovery in the cure of indigestion, dyspepsia and weak stomach, attended by sour risings, heart-burn, foul breath, coated tongue, poor appetite, gnawing feeling in stomach, biliousness and kindred derangements of the stomach, liver and bowels.

Besides curing all the above distressing ailments, the "Golden Medical Discovery" is a specific for all diseases of the mucous membranes, as catarrh, whether of the nasal passages or of the stomach, bowels or pelvic organs. Even in its ulcerative stages it will yield to this sovereign remedy if its use be persevered in. In Chronic Catarrh of the Nasal passages, it is well, while taking the "Golden Medical Discovery" for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sage's Catarrh Remedy. This thorough course of treatment generally cures the worst cases.

In coughs and hoarseness caused by bronchial, throat and lung affections, except consumption in its advanced stages, the "Golden Medical Discovery" is a most efficient remedy, especially in those obstinate, hang-on coughs caused by irritation and congestion of the bronchial mucous membranes. The "Discovery" is not so good for acute coughs arising from sudden colds, nor must it be expected to cure consumption in its advanced stages—no medicine will do that—but for all the obstinate, chronic coughs, which, if neglected, or badly treated, lead up to consumption, it is the best medicine that can be taken.

CARRIAGE BY WATER.

In a recent editorial discussing the construction of the canal between Hamburg and Bremen by the German Government, involving a tremendous outlay of money but saving transportation charges vastly in excess of the outlay, The Philadelphia Press said:

"It is a singular thing that America has, up to this time, been so blind to the value and advantages of inland waterways. We hear now and then of the need of the deepening of a river to make a harbor for a city whose site was chosen before the day of large ships; of a canal to join two lakes, of a safe interior route for war vessels paralleling the Atlantic Coast from Boston to North Carolina, but surprisingly little is said or thought of in regard to any general system of inland waterways. * * * No amount of computation can make it advantageous to neglect the waterway, and we shall add vastly to our resources, industrial and commercial, if we open our eyes to obvious facts."

The obvious facts, to which The Press refers, are in the admitted inability of the railroads to meet the demands of trade and commerce. The volume of business in the United States has grown to the point of outstripping the railway in its capacity for transportation and the previous neglect of the waterways has given place to an earnest demand for their adequate improvement under a fixed policy of the general Government in which the merit of the stream, its capacity for improvement and the tonnage it would bear, if improved, will be the test applied to the question of improvement.

In shaping that policy, in bringing it to the attention of the general Government and—more than all—in the results following, the National Rivers and Harbors Congress has done a great work. Not the least part of the work has been in displacing neglect of the inland waterways and substituting an intelligent appreciation of their value to the trade and commerce and complete development of the limitless resources of the country.

The improved inland waterway would not be antagonistic to the railway. There is a volume of trade and commerce more than enough for all with freight congestions impossible with the inland waterways adequately improved and with freight charges reduced, thereby lessening the cost of the raw material or the finished product to the consumer.

S. B. Russ, one of the best-known journalists in Florida, has met with an affliction that will call forth the sympathy of the press throughout the State. His only brother, F. E. Russ of St. Lucie, was found drowned in Indian river last Wednesday evening. He had evidently fallen out of his launch in an attack of heart disease. It is supposed that his death occurred about midnight of the Sunday previous The affection between the brothers was very strong. The shock of the news is exceedingly severe to the surviving brother, who is inconsolable over the loss of one so near and dear to him. Only those who have passed through experiences exactly similar can fully sympathize with a grief so deep as his, or appreciate the vacancy it leaves in his life which hereafter must be lonelier than ever. For Sam Russ never married and is now the sole surviving representative of his immediate family.—Jacksonville Times-Union.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. LEST WE FORGET.

It is well to keep in mind the actual facts of the political corruption fund that was raised at the last moment in the Roosevelt campaign by Harriman, at the solicitation of the President and expended by Cortelyou and Odell. That Republican paper, The New York Sun, puts it in chronological order thus: "On October 23, 1904, sixteen days before the election, Chairman Odell of the New York Republican State Committee reported the State to be in danger both as to Roosevelt and Higgins.

On October 24th Edward H Harriman was called in.

On October 28th Mr. Harriman journeyed to Washington and consulted with President Roosevelt.

On October 29th Mr. Harriman returned to New York City and got into action.

On October 31st, eight days before election, known for a generation as Dough Day in the State, $200,000 of the $260,000 raised by Mr. Harriman was turned over to Chairman Odell for use in the State of New York. There were sixty county chairmen to be appeased, sixty county chairmen not accustomed to disappointment on Dough Day.

Election day was November 8th.

In the Republican vernacular of New York the word "dough" means money to corrupt the voters of the State, and we have the assurance of Edward H. Harriman that 50,000 votes were changed as the result of the fund collected by him and expended by the Republican politicians.

Considerable complaint has been heard recently of bicycle riders who monopolize the sidewalks, thus endangering the safety of pedestrians. There is a law against this, and if complaint should be entered, the offender of this ordinance would be subjected to punishment. Riders in some instances are very reckless, and sometimes it is said become insolent when a pedestrian protests against getting out into the street in order to let them pass.

The Lakeland News has absorbed The Sun of the same place, and Senator Park M. Trammell, formerly editor of the latter paper, will devote his entire time to the practice of law. He says a man of his ability has no business trying to edit a country newspaper.

THE ZOO BY NIGHT.

Gleaming Eyes in the Blackness Give a Flavor of the Wilds.

The average grownup who visits the zoo thinks it rather a dull sort of show, for the fact that the animals are captive robs them of all the romance that would attach to them in their native forests.

But let the blase sightseer obtain permission to visit the zoo at midnight, and his impressions will be very different. Darkness hides the bars and the boards, and the eyes of some wakeful creature gleam maliciously at you. For the moment you imagine that you are in the wilds, on equal terms with the creatures around.

Poised on the swings and platforms at the top of their cages sleep the monkeys, instinct surviving their loss of freedom, for in the forests they had to sleep thus to avoid the beasts of prey.

Here rests a lioness, prone upon her back, her legs rigid in the air and her paws hanging limply down. There reclines her lord, asleep upon his side, his paws turned in and his general pose not unlike that of a dog.

The more cunning and more cowardly of the animals do not seem to sleep at all, for as soon as they hear our approaching footsteps they give us their greeting with snarls and malevolent glowerings and watch us suspiciously till we depart.—Pearson's.

TEPEE ETIQUETTE.

Never Pass Between an Indian and the Fire—The Seat of Honor.

"If you should ever go into an Indian tepee," said John H. Seger, "remember they have rules of etiquette that are more rigidly adhered to than in our parlors.

"Do not think they are not sensitive, for they are more so than the Japs. If you make fun of his layout the whole family will remember the insult for a lifetime.

"The seat of honor is just opposite the door, across the fire pit. Wait until you are invited before you take that seat.

"If you go bolting into an Indian's tepee and rush over and take this vacant seat he may not take you by the nape of the neck and throw you out, but he would like to if he thought it could be done without cutting off his rations.

"In leaving the tepee never pass between any one and the fire. An old chivalric warrior will crawl around the side of the tent and kick a hole in the wall on the north side in a blizzard before he would violate this rule of etiquette and pass between his guests and the smoking embers."—Arapahoe Bee.

Soldiers and Schiller.

The Germans are notoriously a well educated people, but the popular English belief that every German knows everything would appear to be exaggerated, if we may judge from a German officer's account, published in one of the German reviews, of an examination in general knowledge to which he submitted his company. "Who was Schiller?" was one of the principal questions. Ten soldiers replied that, though they fancied they had heard the name, it suggested nothing to them. Of those who went into details, one said that the author of "William Tell" was the "inventor of printing," a second described him as "a man who knew everything," a third put him down as "a man of science," a fourth as a "poet who wrote Scripture history," a fifth as "a musician of great celebrity," and a sixth as "a manufacturer of bells." One wonders what Thomas Atkins would answer if invited to state what he knew of Shakespeare.—Westminster Gazette.

He Didn't Dine.

Mr. Brown had just had a telephone put in connecting his office and house and was very much pleased with it. "I tell you, Smith," he was saying, "this telephone business is a wonderful thing. I want you to dine with me this evening, and I will notify Mrs. Brown to expect you." Speaking through the telephone—"My friend Smith will dine with us this evening." Then to his friend—"Now, listen and hear how plain her reply comes back." Mrs. Brown's reply came back with startling distinctness: "Ask your friend Smith if he thinks we keep a hotel."

Didn't Want Much.

Here is an advertisement from an old copy of an English provincial journal: "Wanted, for a sober family, a man of light weight, who fears the Lord and can drive a pair of horses. He must occasionally wait at table, join the household prayer, look after the horses and read a chapter of the Bible. He must, God willing, arise at 7 o'clock in the morning and obey his master and mistress in all lawful commands; if he can dress hair, sing psalms and play at cribbage, the more agreeable. Wages, 15 guineas a year."

That is the best government which desires to make people happy and knows how to make them happy.—Macaulay.

AN UNOPENED PADLOCK.

Vienna's Strange Relic That Defied the World's Locksmiths.

In 1810 a blacksmith went to Vienna and locked an iron band around a tree with a padlock. What he did with the key no one knows to this day. There is a mirthful legend to the effect that he carelessly threw it into the air and that it never came down again. At any rate, the key could not be found, and the Austrian government offered a prize of 500 ducats to any one who could make a key that would turn the bolt in the lock without breaking it.

Many have tried to win the prize, but nobody has won it. Eventually it became the practice among the contestants to drive a nail in the tree and the heads of some of the nails bear the initials of those who drove them.

The practice of driving nails into the tree sealed its fate. The lower part of the tree in a few years assumed the appearance of a solid mass of iron. One spring the leaves failed to come out, and later a summer storm blew the top away.

The historic stump was cut off and placed on a pedestal on one of the prominent street corners in Vienna. At the same time the iron band was cut in two and put around the stump to hold it in its niche, leaving the padlock in its original position. And there the old stump stands to this day an object both of the curiosity of tourists and the veneration of the residents of Vienna. Incidentally, a street, Stock im Eisen—"Stick in Iron"—has been named after the stump.—Scrap Book.

Trying the Wrong Man.

An unusual verdict was rendered by the jury in a case tried in a California town a good many years ago. The question was as to the ownership of several head of cattle which the defendant was accused of having stolen from the plaintiff. As the case proceeded and different witnesses gave their evidence, it became apparent to all listeners that the defendant was an innocent man. When it came time for the jury to retire to consider their verdict, they did so, but returned to the courtroom in a few moments. The foreman looked the judge straight in the eye and said with a drawl and twang which betrayed his New England origin:

"Jedge, we find the plaintiff guilty."

"The court is not trying the plaintiff, but the defendant," said his honor hastily, and the matter being explained, the foreman was at length induced to express the jury's opinion that the defendant was not guilty.

"Howsomever," added the foreman solemnly, "'pears to me we're considering the wrong man, your honor!"

Holy Land a World Center.

It used to be a fancy that the Holy Land was the center of the world. In a sense not then meant it was indeed central. It occupied a strategic position. Three continents converge here—all the continents known as the ancients—Asia, Africa and Europe. Contiguous to Palestine on the south lies Egypt and on the north Syria. Or, taking a wider view, on one side of it were India, Persia, Assyria and Babylonia, while on the other side of it were Egypt, Greece and Rome. A babe among giants the land of Jesus was indeed little among the geographical tribes; but, like a babe, it was monarch of the household of lands.

From its central vantage tiny Palestine saw through the march of centuries the procession of these mighty empires—Assyrian, Babylonian, Medo-Persian, Greek and Roman, being itself during much of the time a center of influence and determining force that have helped form the character and history of the civilized world.—Exchange.

A Clash of Prayers.

Maggie, with her fair face and blond hair, and Nina, with dusky skin and kinky wool, had played together at mud pies and had swung on the same gate ever since they could remember, for Nina's mammy was Maggie's nurse, says the Housekeeper. They were now seven years old. Maggie loved Nina in spite of her color, yet she had a feeling that her friend deserved to be white, so she added to her prayer each night:

"Please, God, make Nina white."

As the weeks went by and Nina remained unchanged Maggie felt that her petition needed re-enforcement, so she confided in Nina, begging her to pray for the greatly desired bleaching. But Nina in surprise looked at Maggie with wide open eyes and exclaimed:

"Me? No, sir-ee. Fo' de Lawd, Maggie, I doan wanter to be no white child, an' I's jes' prayin' with all my might fer you to come black!"

Feminine Nerves.

There are nervous women; there are hypernervous women. But women so nervous that the continual rustle of a silk skirt makes them nervous—no, there are no women so nervous as that!

Error of opinion may be tolerated where reason is left free to combat it. —Jefferson.

STATE FAIR NOTES.

Hon. W. J. Bryan to Speak—Many Attractive Features.

Atlanta, Oct. 2—Hon. William Jennigs Bryan will make an address at the State Fair, at Atlanta, Ga., on Saturday, Oct. 19. He will be introduced by Governor Hoke Smith. This will be one of the big days at the fair.

All the secret orders in Georgia have been invited to take part in Fraternal day exercises at the state fair, on October 17th.

Nearly all the railroads in Georgia will give reduced rates to the state fair, Oct. 10 to 26.

The far famed Passion Play shown in moving pictures, will be seen at the state fair. This play, ten years at Oberammergau in Europe, draws people from all over the world.

Baby incubators with real infants in them will be shown at the State fair. The incumbator is the best mother in the world for tiny, weak babies as the temperature is always the same, and a doctor and trained nurse are always on hand.

The state fair has engaged Ranch 101, the great Wild West show, to come direct from the Jamestown exposition to Atlanta. This show has been the leading attraction at Jamestown ever since the exposition opened. It is the largest aggregation of genuine indians and cowboys traveling.

ITALIANS MIGRATING.

Feeling Against Them Is Strong in the Town of Sumrall, Miss.

Hattiesburg, Miss., Oct. 2.—Sumrall, Miss., 18 miles from here, on the Mississippi Central railroad, feeling against Italians has grown so strong that they are packing up and preparing to move from the neighborhood.

The trouble grew out of the complaint of an Italian that has children who were excluded from the public schools. He was taken into the woods Friday night and given a severe whipping. The situation has been aggravated by the demands of the employees of the Newman Lumber company, at Sumrall, for an increase in wages. The Italians and negroes have been warned not to work there.

Sumrall is a small lumber town of about 600 inhabitants, about one-sixth of which are Italians. The authorities of Lamar county have been appealed to for protection by the lumber company.

TERRORISTS INVADE BARRACKS.

Russian Officers Killed and Some Wounded at Sebastopol.

St. Petersburg, Oct. 2.—The chief of naval staff denied the report from Odessa of a serious mutiny on board the Russian fleet at Sebastopol.

The official added, however, that in view of the excitement caused by the sensational incident at Sabastopol barracks when three terrorists disguised as officers penetrated into the barracks yard in an attempt to provoke a mutiny among the troops and the disclosure of the fact that the revolutionary propaganda was in progress among the crews of the warships, it had been deemed wise to send the fleet to sea upon a practice cruise.

The terrorists who entered the Sebastopol barracks fired upon the officers, mortally wounding Captain Noviroff, seriously wounding another officer named Poletoff and succeeded in escaping.

Georgian Killed at Canton O.

Canton, Ohio, Oct. 2.—Quartermaster Sergeant Charles G. Plaskett, of the Twelfth United States cavalry, Fort Oglethorpe, Ga., was killed by a switch engine here Monday as he was making his way to the train which was to bear him back to Georgia. Plaskett was with the troops that came to attend the dedication. He went to the station and as he crossed the tracks he became confused. The locomotive ran him down from behind. He was hurriedly taken to a hospital where both legs were amputated. He died within two hours.

Swedish Challenge for Cup

New York, Oct. 2.—It is thought that the idea of a Swedish challenge for the America's cup was prompted by the visit of Prince Wilhelm to this country recently. The prince was much interested in maritime affairs and met among others some yachtsmen and through them became interested in the Amreica's cup.

Big Bond Issue Authorized

Atlanta, Oct. 2.—The railroad commission Monday authorized the Atlanta Telephone and Telegraph company to issue $1,000,000 of 5 per cent 20-year bonds, for the purpose of taking up outstanding bonds to the extent of $481,500, for buying real estate and making extensions of its ducts and lines in and around Atlanta.

S.S.S. HEALS OLD SORES

An old sore or ulcer is only a symptom, an outlet for the impurities and poisons which are in the blood, and as long as this vital fluid remains in this impure, contaminated state the place will never heal. The application of salves, washes, powders, etc., may cause the spot to scab over, but a fresh outpouring of diseased matter from the blood starts it again, and thus it goes on, gradually growing worse and slowly affecting the entire health of the sufferer. There are many ways in which the blood becomes contaminated and poisoned. A long spell of sickness breeds disease germs in the system, the failure of the eliminative members to remove the refuse and waste matter of the body, the excessive use of mineral medicines in certain diseases, all infect the blood with morbid matter and germs which sooner or later is manifested by a sore that refuses to heal. Persons with inherited blood taint are very apt to be afflicted with sores and ulcers. The taint may lie dormant during young, vigorous life, but when middle age is reached or passed and the natural energies begin to grow weaker, the tissues in some weak point break down and a chronic sore is formed and kept open by the constant drainage of impure matter from the blood. If the cause is not removed the sore will continue to grow worse by eating deeper into the flesh, festering, discharging, and slowly undermining the constitution. S. S. S. heals old sores by going down to the very bottom of the trouble, driving out the impurities and building up the entire circulation. When S. S. S. has removed the cause the blood becomes rich and healthy, the sore begins to heal, new flesh is formed, and soon the place is cured. Do not depend on external applications, which do not reach the blood, but begin the use of S. S. S. and remove of the cause, and then the sore must heal. BOXER OUTBREAK.

Attacks Made by Fanatics on Christian Mission Buildings.

Shanghai, Oct. 2.—Details received here in regard to the outbreak of boxerism at Kan Chow Fu, province of Kiangsi, last week, say that the building of the Catholic Mission and the China International mission there were destroyed as the results of riots organized against the "worshipers of the great white God."

A French priest was killed, but the other missionaries, including the Americans, Messrs. Horn and Marshall and their families, are safe.

The Chinese officials have sent detachments of soldiers to Kan Caow Fu to restore order and have taken stepts to protect the missionaries.

The Water Bottle's Shape.

Three useful purposes and probably many more than three are served by making the familiar water bottle of such a distinctive pattern. In the first place the narrowness of the neck prevents the entry of much dust that would inevitably settle on the water were the entire surface exposed; in the next place the same narrowness prevents excessive and rapid evaporation of the water, and in the third place the shape of the neck makes it a capital handle, thus doing away with the necessity for a separate handle fastened to the body of the bottle, a course that would render it much less convenient and more liable to be broken.—Pearson's.

The Sequel to the Joke.

Many years ago a visitor to Edinburgh was being shown over the high court of justiciary. He made some remark concerning the dock and its duties, and in reply the official jokingly said the visitor might one day be sentenced to be hanged in that very room. The sightseer was the notorious Dr. Pritchard. Two years had barely passed when in the dock he had so closely inspected he was doomed to death for poisoning his wife and mother-in-law.

HOW BONNER WON SUCCESS

The career of Robert Bonner, the veteran publisher, furnishes a signal illustration of the value of persistent and sagacious advertising. When he began the publication of the paper whose phenomenal success brought him fame and fortune, he did not wait for the people to find out, slowly and gradually, the interesting features of his journal.

He forced his enterprise upon public attention by a systematic lavishness of expenditure for advertising which at that time was without precedent or parallel. Whole pages of daily newspapers were secured at high prices to blazon forth the merits of his undertaking.

From one end of the country to the other the names of Bonner and his Ledger were made familiar to the people by constant repetition.

Conservative publishers, jogging along in the ruts of old routine, prophesied bankruptcy and ruin for this unconventional innovator, but Bonner kept on spending a large share of his receipts in buying publicity, and those receipts increased with startling rapidity.

Every dollar disbursed in this way brought in more dollars until croakers were confounded and pessimists in this particular branch of business silenced by his tremendous success.

The lesson is one that is as well worth heeding today as it was forty years ago.—Philadelphia Bulletin.

BLEW UP EX-SHERIFF

Outrage Perpetrated In Oregon by Unknown Parties.

LIKE STEUNNENBURG AFFAIR

As Former Sheriff Brown Was Entering His Front Gate, Bomb Was Exploded, Blowing Off His Leg and Otherwise Maiming Him.

Baker City, Oreg., Oct. 2.—An attempt was made at 10:30 o'clock on Monday night to assassinate former Sheriff Harvey K. Brown at his home in this city by blowing him up with a dynamite bomb.

Mr. Brown is in the hospital, in a critical condition.

One of his legs was blown off, one of his arms badly mutilated, besides internal injuries, caused by the concussions.

The outrage is similar in manner of execution to that which resulted in the death of former Governor Frank Steunenberg at Caldwell, Idaho.

Mr. Brown was returning home and as he opened his gate the bomb exploded, wounding Mr. Brown and blowing out the windows of his house.

The explosion was heard in the center of the town half a mile away. The chief of police and county authorities are wholly unable to fathom any cause for the deed and they are also wholly unable to obtain any clew to the perpetrator of the crime.

Lay in Wait for Victim.

Portland, Oreg., Oct. 2.—A special from Baker City, Oreg., says:

Ex-Sheriff Brown, who was dynamited Monday night and just returned from a trip out of town to some mining property. He was found lying on the sidewalk several feet from the gate, the large posts were found blown to pieces and the fence shattered for some distance. The perpetrators left no trace of their deed except a wire which extended about 25 feet north along the fence and then went west about 30 feet to the middle of the road. It is presumed that the assassins were lying in wait for Mr. Brown and pulled the wire as he entered the gate.

Immediately after the explosion a neighbor of Mr. Brown's heard some men running north from the direction of the Brown house. It is thought that Mr. Brown had some idea of the identity of the assassins.

Mrs. Brown is prostrated by the shock, and the physicians fear she will not recover.

Mr. Brown, while sheriff of Baker county, was diligent in enforcing the law against saloon men and gamblers.

WAR IN TEXAS TOWN.

Gov. Campbell Asked for Rangers to Prevent Further Trouble.

Henderson, Tex., Oct. 2.—Two men have been killed and the town of Tatum, Tex., a small town near here, is in such a state of excitement, the outgrowth of a dispute between Cashier Hemby of the Tatum State bank, and Sam Helverston, the local freight agent, Saturday afternoon, that an appeal has been forwarded to Governor Campbell, asking that Rangers be sent to prevent further trouble.

The trouble originated in a controversy regarding the payment of a freight bill. Revolvers were drawn, and in a street battle Hemby was fatally wounded. Friends of the principals involved divided into factions and Monday a man named Adam was killed.

Suffers No More.

Parkersburg, W. Va., Oct. 2.—Theodore Huff, aged 42, single, cut his throat with a razor, dying instantly. He left a note saying he had suffered all his life from an incurable disease and thought best to put an end to it all.

China a Constitutional Monarchy.

London, Oct. 2.—A special dispatch from Pekin says the dowager empress has issued a decree declaring the government of China a constitutional monarchy.

IRA CARTER'S MISFORTUNE.

Ankle Was Severely Sprained as Result of a Runaway Monday.

Ira J. Carter, one of Newberry's well-known young citizens, was a visitor to Gainesville Wednesday.

Mr. Carter seems to be a creature of misfortune, as far as receiving injuries by runaways in concerned. A few months ago, in a runaway, he sustained a broken leg by being thrown from his buggy, which caused his confinement for several weeks. He was the victim of another runaway Monday, and in jumping from the vehicle in which he was riding one of his ankles was severely sprained.

Mr. Carter owns a fine farm midway between Newberry and Gainesville, and on this occasion was taking three double teams to the farm from Newberry to assist in harvesting his crop. In some manner the rear team became frightened and unmanageable, causing the teams in front to run away, and demolishing two wagons. Mr. Carter was leading the trail in a buggy, when one of the teams ran into the vehicle, upsetting it and frightening his horse.

AN ENJOYABLE OCCASION.

Missionary Societies Entertained at Home of Mrs. T. F. Thomas.

The Ladies' Home and Foreign Missionary Societies of the First Methodist church were entertained at the home of Mrs. T. F. Thomas, 500 West Main street N., Wednesday afternoon.

There were a number of both societies present, in response to the invitation, and the afternoon was passed in a most enjoyable manner, a pleasing program and refreshments being served.

As an entertainer Mrs. Thomas has demonstrated the fact that she is a great success, and the ladies always delight to have the opportunity of her hospitality.

A Reliable Seed Co.

Of the numerous seed stores throughout the State, it is safe to assert that the people of Gainesville and vicinity who have occasion to purchase seeds have, in the establishment of the Evans Seed Co., one of the most reliable in the country.

George Evans is known throughout the entire State as a seedman of superior ability, serving a number of years in learning the business. The public is now getting the benefit of these long years of study, and are so confident of his ability that it is never questioned.

Mr. Evans is assisted in the store by his son, George, Jr., who is also a practical man, having had the advantage of his father's instruction.

Seed from every package handled by this establishment are tested, which is another reason the planters and truckers have confidence in this company.

Wanted—Hardwood Timber.

The Brown-Jenings Hardwood Company of Lake Butler, Florida, are in the market for large quantities of hickory, white oak and ash timber.

They offer to buy it either in the log or sawed into plank. Now that the price of pine is off, this is an opportunity for sawmills to work on lumber in which there is a profit, as we are offering fancy prices for such lumber. This also affords the tie men, who are equipped with teams, a chance to get out logs at a good figure.

For full information regarding prices, etc., address

Brown-Jenings Hardwood Co.,
Lake Butler, Florida

New School House.

C. C. Fletcher, a successful contractor of Bell, was in the city Tuesday on business connected with the school boards.

Mr. Fletcher has just completed a nice school building for Suwannee school, in the West End, which would do credit to a much larger district. The patrons and trustees were well pleased with the building.

IN MEMORIAM.

Beautiful Tribute Paid to Judge Stringfellow by Brother Masons.

Whereas, is has pleased Almighty God to remove from this life our friend and brother, Judge R. H. Stringfellow, and

Whereas, His untimely demise has cast sorrow over the entire community, a sorrow felt, indeed, by everyone who knew him, and

Whereas, We feel that in his death, the Masonic Fraternity, the State, the county and the community, have lost one of their best and most high-toned citizens; one in whom there was no guile; a man in whose bosom there pulsated sympathy and love for the whole human race; a man that even a little child could approach with impunity.

His was a noble life, full of generous acts.

He was never happier than when giving comfort and consolation to others.

His ever ready smile and cordial grasp of the hand, his patient face, his sympathetic eyes, we shall truly miss. He had, for years, been an intense sufferer, with neuralgia; yea, he suffered always, and at times, untold agonies; but he bore it without a murmur.

He was sixty-three years old and was a Mason for forty-one years.

He dearly loved the order, and was prominent in the administration of its affairs.

He was an officer during the greater part of the forty-one years of his connection with the order, and his death is a disitnct loss to the Masonic fraternity.

Desiring, even in an humble way, to pay a tribute of respect to his memory, we, the members of Hawthorn Lodge No. 103, F and A. M.,

Resolved: First, That we tender, to the family and relatives of our beloved brother, our most profound sympathy and condolence. We would point them to his spotless life, a rich heritage, indeed, and to the Great Architect of the universe, who in taking our brother to Himself, has only called him from labor to refreshment.

Resolved, Second, That these resolutions be spread upon the minutes of the lodge and that a copy be given to the family of our brother.

Resolved, Third, That a copy of these resolutions be sent The Gainesville Sun for publication.

Also, Our Brother, Alas! We shall never more behold thy face on this troubles earth, but with the hosts, eternal, who have joined the choir, innumerable, we shall meet thee and there with thee abide, in the lodge of the Most High God, not made with hands, eternal in the heavens.

JNO. D. TEETER, Secretary.

BETTER THAN MEDICINE.

Breathe Hyomei's Tonic Healing and Be Cured of Catarrh.

Nature has a remedy for catarrh, a treatment that is far better than dosing the stomach with medicine.

It is the healing oils and balsams of Hyomei which medicates the air you breathe, reaching the most remote air cells in the nose, throat and lungs, killing all catarrhal germs, and restoring health to the mucous membrane.

In using Hyomei you are treating your catarrhal troubles with the only natural remedy, for it gives a curative air bath to the air passages that has as powerful healing and antiseptic effect as that found in the mountains where the pine forests give off their fragrant and healing balsams.

Breathe the invigorating and healing Hyomei and see how quickly you will get relief from your catarrhal troubles. J. W. McCollum & Co. see so many cures, even of the worst cases of catarrh, with offensive breath, raising of mucous, frequent sneezing, dropping in the throat and spasmodic coughing, that they feel warranted in selling Hyomei under an absolute guarantee to refund the money if it does not do all that is claimed for it. They will take all the risk.

Farmers' Union Picnic.

The farmers of this section of the country have formed a union for their mutual protection, and with a view to receiving better prices for the products. The membership is large, and is increasing every day.

The Farmers' Union, as the members style themselves, will hold a grand rally and basket picnic at Montevcha on Friday, October 18, at which time matters of interest to the farmer will be discussed.

A cordial invitation is extended to the public and a good crowd is expected. Let everybody come and all who can bring well-filled baskets.

A Large Pumpkin.

One of the largest and finest pumpkins seen in this section for a long time was that brought to Sheriff L. W. Fennell by [illegible] Dampier of Hague on Tuesday.

Mr. Dampier, who is the efficient chairman of the Board of County Commissioners is also a successful farmer, and as a token of his friendship to Sheriff Fennell he brought him this pumpkin.

The pumpkin was on exhibition in the office of County Clerk S. H. Wienges during Tuesday, and attracted a great deal of attention.

SCHOOL TO OPEN MIDDLE OF MONTH

Superintendent Kelley Promises to Begin Term on 14th Inst.

TROUBLE TO GET A TEACHER

Whom the Superintendent Deems the Capable Person to Fill Position as Principal—None But First-Class Instructor Will Be Accepted.

While the majority of schools in the county opened with regularity on Monday, the 30th ult., through the misfortune of being without a principal it became necessary to postpone the opening of the Gainesville Graded and High School, with the result that there were a number of disappointed patrons and ambitious students. This delay, however, could not be remedied, as Prof. Tom McBeath's successor could not be secured in the short time intervening and the date for the regular beginning of the school term.

Superintendent Kelley states, however, that the school will open not later than Monday, the 14th inst. and assures the public that arrangements will be made to secure a first-class and capable man to take the principalship by that time.

As has been stated before, Prof. McBeath, at almost the last moment, was tendered a position as dean in the Mississippi State College for Women at a much more lucrative salary than he was receiving here, and his acceptance of same left the principalship of this school vacant, and inasmuch as Superintendent Kelley would have none but a first-class instructor to succeed him, there has been some trouble, which caused the delay. Dr. Kelley states positively, however, that the school will open not later than the 14th, and will open in first class shape.

The patrons of the Gainesville Graded and High School realizing Superintendent Kelley's position and realizing the extra efforts he is making to secure a teacher are bearing with him in patience.

Death of a Good Lady.

Mrs. J. A. Reid, mother of Postmaster Arthur Reid of Newberry, died at the home of her son on Sunday in the sixty-fifth year of her age.

Deceased was one of the most widely known and most beloved of the West End. She was possessed of a gentle, sweet disposition, kind and attentive to [illegible] and her death will be generally regretted.

The remains were sent to Indiana, the former home of deceased, where the interment was held.

Card of Thanks.

We wish, by the kindness of the editor and through the columns of the Sun, to express our heartfelt thanks and our appreciation to the friends of Newberry and the country for the aid and sympathy they showed us in the hour of trouble and sorrow, the illness and death of our beloved son, Willis Littleton, who passed away Sunday morning, September [illegible].

Sincerely,

MR. AND MRS. J. W. [illegible]

Newberry, October 2.

Death of a Child.

Information has reached this city of the death of Willis, the three-and-a-half year old son of Mr. and Mrs. Joseph Wilson, which occurred in Newberry Monday.

The funeral was held Monday, the interment being at Forest Grove cemetery. Rev. G. T. Tyler conducted the ceremonies.

Friends of Mr. and Mrs. Wilson sympathize with them in their bereavement.

MR. STANFORD PROMOTED.

Will Be Chief of Field Staff of Ninth Division, U. S. Special Agents.

From Sunday's Daily Sun.

E. D. Stanford, special agent of the United States land office, who has made his headquarters in Gainesville for the past two or three years, has been promoted, which will be glad news to his numerous friends, although they will regret very much to lose him.

Mr. Stanford on Thursday received a telegram from General Land Commissioner R. Ballunger, Washington, instructing him to proceed to New Orleans, where he will assume charge as chief of field staff of the ninth division, comprising the States of Florida, Missouri, Arkansas, Alabama, Louisiana and Mississippi.

While Mr. Stanford regrets very much to leave Gainesville, he says it is a promotion which he cannot afford to pass by. It gives him not only more salary, but more prestige, and is a step higher in the land office work. Having the matter in his hands, however, he may decide to make his headquarters in Gainesville instead of New Orleans.

Mr. Stanford is quite popular, having been in public life for many years. He was at one time a member of the State Senate of North Carolina, and was for two terms journal clerk of the Senate of that State. He was afterwards elected State librarian, after which he served three years in the United States Treasury Department at Washington.

Returning to North Carolina, Mr. Stanford practiced law with great success, before entering the Land Department of the United States Government.

DEAD MAN BOUGHT PIANO

And Salesman Clinched Bargain Before Funeral Was Over.

The following anecdote, though a little grewsome, illustrates the extent to which some salesmen go to procure business, says The Delineator for October. It was recently related as actually occurring in Cincinnati, though we will not vouch for it:

"On his way to business, a piano man noticed crape on the door of a house, and, ascertaining from the neighbors that the head of the family had died, immediately called on the widow, and in condoling said:

"'And he was such a devoted husband! Only the day before his fatal illness, he visited my store and selected a piano to be sent to you as a present but, of course, this calamity has canceled the transaction.'

"Naturally the bereaved wife insisted upon owning this last token from the departed, no matter what the cost, and the enterprising salesman closed a profitable sale, though his whole story to her was, of course, a fake."

MICANOPY NEWS NOTES.

Micanopy, Sept. 30.—Mrs. Dr. Johnson and children have returned from St. Petersburg, where they have been on a summer vacation.

Mr. Melton and family reached home yesterday, after having spent several weeks at different summer resorts.

J. E. Thrasher, Jr., who met with a serious accident several months ago and had to go to Baltimore for treatment, came back Thursday. He seems to have recovered entirely, and is looking well. He was accompanied home by his sister, Ruble, and Miss Lola Maude Smith, who had been in Baltimore several weeks.

Mr. Thrasher is putting another addition to his immense store building.

A new fence has been put up at the Carolina House, and it adds very materially to the looks of the place.

DEATH OF MR. ELVINGTON.

Well-Known Levy County Man Passed Away in Gainesville Monday.

From Wednesday's Daily Sun.

James O. Elvington of Otter Creek died at the Odd Fellows' Sanitarium in this city at 8 o'clock Monday night of heart failure, brought about presumably by an attack of acute rheumatism which had troubled him for some time.

Mr. Elvington, whose home was at Otter Creek, where he has been for several years engaged in the naval stores business, was brought to Gainesville several weeks ago and placed in the hospital, where he has received the best of attention. Everything possible was done for him, but to no avail.

Deceased was a native of North Carolina, and was about 38 years of age. He was a man of excellent character, and was well liked by all who knew him.

The remains were taken Tuesday to Fair Bluff, N. C., where the interment will be held. They were accompanied by his father, Geo. W. Elvington, who was with him at the time of his death, T. W. Shands of this city, and J. S. Fisher of Otter Creek, with whom he was associated in business.

Deceased is survived by his parents, one brother and one sister, to whom the sympathy of the community and friends is extended.

$100 REWARD, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address

Mr. Stanford, who is possessed of a most amiable disposition, has made many friends here who regret to see him leave. They have the consolation of knowing, however, that they will see him once in a while, as he has promised to make visits at regular intervals.

Deceased was born in Georgia, near Valdosta, but has been in this State and county for the past thirty years. She was a devout Christian, a member of the Christian church, and was active until prevented from active work on account of her advanced age.

The funeral was held Sunday, the interment being in Pine Grove cemetery, Elder Lindsay officiating. It was one of the largest attended funerals ever held in the county, nearly a thousand friends of the deceased coming from every section of the county.

THE METHODIST CHURCH.

Four Accessions Made at Conclusion of Sunday Evening Service.

The services at the First Methodist church were well attended on Sunday evening, when the pastor, Rev. T. J. Nixon, delivered a most interesting sermon. Dr. Nixon is a preacher of great ability, always speaking with interest, and upon this occasion his hearers were deeply interested.

At the conclusion of the service four members were received into the church—three by letter and one by baptism and confession of faith. The service in all was a most enjoyable love feast, and those who attended were deeply impressed.

Pleasant Birthday Party.

R. T. Schafer, the well-known baker who owns and conducts the Keystone Bakery, North Gainesville, always did believe in something good to eat, especially on the occasion of his birthday.

Mr. Schafer observed this occasion on Sunday in the greatest style, as far as something to eat was concerned. It was his thirty-third year, and his good wife prepared a dinner of roast turkey and other things good enough for the gods. Only a few intimate friends outside the family were present, but the spread was thoroughly enjoyed, and late in the afternoon those who had been so fortunate as to sit around the festive board departed, wishing the hoast and his family many pleasant returns of the day.

GEORGE OLMSTEAD WANTS $40,000

Sustained Injuries in a Wreck on a Texas Railroad.

TRAIN WENT THROUGH BRIDGE

Mr. Olmstead Was the Conductor, and in His Allegations Sets Up That He Has Been Injured, Which Will Incapacitate Him for Duty.

G. P. Olmstead, formerly of this city and who is well known throughout this section of the country, was the victim of an accident in Texas, while serving as conductor of a freight train on the Beaumont, Sour Lake and Western railroad, in which he claims to have sustained serious injuries. Mr. Olmstead is now laid up in a hospital in San Antonia, Texas, and the following account of his misfortune, taken from The Houston Post of the 22d inst., will prove of interest to friends of the man here:

"G. P. Olmstead, who claims that he was precipitated in the San Jacinto river while acting as conductor of a work train, has filed suit in the district court against the Beaumont, Sour Lake and Western Railroad company to recover damages to the extent of $40,000.

"In the petition it is alleged that the bridge over San Jacinto river broke in two on July 15, 1907, permitting the train upon which the plaintiff was conductor to fall to the ground and into the bed of the river. As a result of the fall, Olmstead claims that a number of his ribs were driven and pressed in; that his chest has been lessened in size and his lung capacity decreased. He also claims that he received severe blows on his sides, back, loins, head and other portions of his body, and that the lower vertebra of the spinal cord is broken."

SUNDAY SCHOOL CONVENTION.

This association, which is an adjunct of the Baptist Church, is composed of Sunday school workers, and have regular meetings on each fifth Sunday. The convention of delegates from the various Sunday schools of the district come together for the good of Christ and the progress of the Sunday school, which accomplishes a great deal, giving the various Sunday schools an opportunity to exchange ideas and plans for the betterment and advancement of the work.

FATHER LYNCH IN TROUBLE.

Lost His Fine Fox Terrier, and Feels Very Badly About It.

Rev. P. J. Lynch, pastor of St. Patrick's Catholic church, and one of the most kindly-hearted men in this section of the country, feels badly because he has lost his companion, "Fido," an affectionate fox terrier which has followed him and proved a true friend, for some time. It was not exactly "Fido's" intention to leave his master, but somehow the animal strayed, and Father Lynch feels as bad about it as "Fido" must feel by this time.

"Fido" is a good and handsome dog. He has been admired by all lovers of good-looking and intelligent canines, with the result that Father Lynch has got the sympathy of all dog admirers, and has got them all looking for "Fido."

The dog disappeared from home Saturday night, since which time nothing has been seen or heard of him. He is a fox terrier of medium build, white, one black ear, and the owner would very much appreciate any information leading to his recovery.

THE MOTHERS' MEETING.

Was Held at Home of Mrs. Pitts, and Was Well Attended Monday.

The Mothers' meeting was held at the home of Mrs. T. W. Pitts, 401 West McCormick street, Monday afternoon, and was well attended.

These meetings, which are held at regular intervals, are becoming more interesting and instructive at each session, and those who manifest an interest are receiving great benefit. The meetings are proving most beneficial and instructive each month.

The program Monday comprised a list of musical and literary numbers which were indeed entertaining, and which will not soon be forgotten by those who heard them.

During the afternoon Mesdames Pitts and O. P. Cannon, who shared honors in entertaining, served delicious refreshments, which it is needless to add were enjoyed.

In the Mayor's Court.

Butch Tisby was arraigned in the mayor's court Monday for the third time within a week upon a charge of gambling. Butch apparently loves the fascination of gambling to such an extent that it is hard for him to give it up. He was fined $10 and costs, but through his attorney, T. H. Ellis, Jr., appealed the case.

Sarah Rowe and Agnes Lemon, two dusky damsels of the Seaboard depot district, were arraigned for fighting, and were fined $5 and costs each.

John Woodson, for being drunk, was assessed a fine of $1 and costs.

ORANGES WILL BE SHORT.

Drought and Rain Combined Played Havoc With This Year's Crop.

Joseph J. Tinsley, representative of the E. R. Brackett Company, New York, and one of the most thoroughly posted commission men in the State, after spending two or three days with his wife and mother in this city, left for Palatka and other points Monday in the interest of his firm.

Mr. Tinsley states that the movement of the first crop of oranges will be on in good shape the latter part of October. This crop will be short, however, running from 600,000 to 700,000 boxes. The second crop will begin to move late in December. This crop will run two and a half to three million boxes, against about 4,000,000 last year, which shows that the crop will be away short.

Mr. Tinsley attributes this shortage to the drought, which was of great duration, and more recently to the excessive and continued rains throughout the country.

JURY LIST WAS DRAWN.

Clerk Wienges, Sheriff Fennell and Justice Colman Drew Names.

The list of thirty-six names, which comprises the panel for the coming fall term of the circuit court, which will convene in this city on November 11, has been drawn, Clerk S. H. Wienges, Sheriff L. W. Fennell and Justice Geo. M. Colman drawing the names from the box.

It has been the practice in nearly every county in the State to publish the names of those drawn as jurors in advance, but Clerk Wienges does not believe this to be the proper thing, as it invites the opportunity of schemers to interview the jurors and ascertain how they stand on certain matters which may be pending.

Herbine will assist nature to throw off headache, rheumatism and ailments akin to it—cleanse and restore the elasticity and vitality of sound and perfect health. J. J. Hubbard, Temple, Texas, writes: "I have used Herbine for the past two years. It has done me more good than all the doctors. It is the best medicine ever made for chills and fever." For sale by W. M. Johnson.

Meeting of the Boards.

The Board of County Commissioners and the Board of Public Instruction held their regular monthly sessions Tuesday, and both were attended by every member.

Proceedings of the meetings will be given as soon as the same have been entered upon the minute-books.

LETTER TO E. C. CHITTY & SON, Micanopy, Florida.

Dear Sirs: Here's a tale with a point to it. Florida is the hardest State in the Union for Paint.

Gilmore & Davis Co., Tallahassee, Florida, think they know what paint can do in their climate; they've been painting for 15 years, Devoe ten years; and they say Devoe wears 10 years—their words are: "Buildings we painted Devoe 15 years ago are in good condition of paint today."

They also say lead-and-oil wears only one year there. Devoe 10 years!

Ten years is a long lifetime for paint in Florida; longer than 20 in Maine. We don't dare say that either is true as a general fact in those States; but there are such instances.

If we should call the cost of Devoe in Florida half of the usual cost of paint, it would be too much; we suppose it's about one-third; there is so much trash there—the costliest paint is the worst, and the worst is the costliest everywhere.

Yours truly,
F. W. DEVOE & CO.

This bank was organized Tuesday at Alachua by the election of Dr. J. C. Bishop president, T. W. Shands and C. A. Williams vice-presidents, and G. W. McCall, formerly cashier of the Bank of High Springs, cashier. The directors of this new institution will be Dr. J. C. Bishop, C. A. Williams, J. W. Roberts, S. J. Ellis, E. E. Bell and G. W. THE VALUE OF PERSONAL KNOWLEDGE

Personal knowledge is the winning factor in the culminating contests of this competitive age and when of ample character it places its fortunate possessor in the front ranks of

The Well Informed of the World.

A vast fund of personal knowledge is really essential to the achievement of the highest excellence in any field of human effort.

A Knowledge of Forms, Knowledge of Functions and Knowledge of Products are all of the utmost value and in questions of life and health when a true and wholesome remedy is desired it should be remembered that Syrup of Figs and Elixir of Senna, manufactured by the California Fig Syrup Co., is an ethical product which has met with the approval of the most eminent physicians and gives universal satisfaction, because it is a remedy of

Known Quality, Known Excellence and Known Component Parts and has won the valuable patronage of millions of the Well Informed of the world, who know of their own personal knowledge and from actual use that it is the first and best of family laxatives, for which no extravagant or unreasonable claims are made.

This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to world-wide acceptance as the most excellent family laxative. As its pure laxative principles, obtained from Senna, are well known to physicians and the Well Informed of the world to be the best we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of—Syrup of Figs—and to get its beneficial effects, always note, when purchasing the full name of the Company—California Fig Syrup Co.—printed on the front of every package, whether you call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna.

The first Saturday in October (which is NEXT SATURDAY) we have decided to give 10 per cent of our cash sales to the Orphanage Home at Arcadia, in compliance with the letter of Superintendent B. M. Bean, which appeared in The Gainesville Sun of Sept. 18, 1907, and we will be pleased to have the public co-operate with us in this worthy cause. Our entire stock of Merchandise, consisting of

Clothing, Dry Goods, Shoes, Hats, Skirts, Ladies' Ready-to-Wear and Notions Will be Marked Down at the Lowest Figures.

We have been reliably informed by one of the Trustees that there are nine orphans from Alachua County in this asylum, and we hope that the public will assist us in making a good showing in this worthy cause.

SUBVERTING THE CONSTITUTION.

In his recent speech at Jamestown, Judge Parker performed a great public service by analyzing the fundamental policy of the Roosevelt regime. He quoted from the text of the President's Harrisburg speech the words: "We need, through executive action, through legislative action and through judicial interpretation and construction of law, to increase the power of the Federal Government. If we fail thus to increase it we show our impotence." Judge Parker's principal objection to this revolutionary, not to say treasonable policy, was in substance that it is a brazen, unequivocal proposal to substitute for the constitution a government by commissions that in the end, through successive expansions of the commerce clause of the constitution, might cover almost every incident of productive and creative energy. Not by a constitutional amendment, but through the concerted action of the executive, the legislative and the judicial departments of the Federal Government. That it was, in other words, a proposal to change essentially the form of government in these United States by the creation of commissions empowered to deal judicially with special subjects; by the conferring upon the same commissions of legislative functions, through delegation of the power committed to Congress by the constitution; and finally by committing to the executive the unrestricted power of appointing and removing the members of such commissions; thus in practical effect concentrating in the hands of the executive alone unlimited power. Judge Parker has discovered the real issue upon which the next campaign must be fought, and he has presented it with a clearness which will command attention.

LOOKS LIKE STOCKTON.

Under the above caption The Tampa Tribune of last Sunday says editorially:

"He has friends without number in the State of Florida, has J. N. C. Stockton, and each and every one of them is enthusiastic in the wish that he enter the race for Governor in next year's primary election. And it certainly looks as though he would yield to the urgent appeals reaching him from every direction and announce himself ready to satisfy so universal a desire.

"It is perfectly safe to predict that should he run he would completely outstrip every other candidate who has so far declared himself. Mr. Stockton is justly regarded as one of the brainiest, most honest and most capable men in Florida. This is the opinion not of his intimate friends only. It is the general belief throughout the State. His popularity is not based on any peculiar animal magnetism, on any of the superficial charms of personality that often win admirers, on rare powers of social entertainment or gracious bonhommie, but is the result of an understanding by the people of the true worth of the man and his great fitness to fill the executive chair.

"The Tribune is free to confess that it has a great admiration for the subject of our remarks and fully realizes with the multitude that if elected Mr. Stockton would make a Governor who would give impartial and complete attention to all affairs of State and would do honor to the exalted office."

QUESTIONS ANSWERED.

(From The St. Augustine Meteor.)

In a letter asking for a sample copy of The Meteor, a would-be settler asks these questions: "What does Florida stand most in need of and what would be the best procedure for a new-comer?"

We answered a similar question to this in The Datil Pepper, some ten years ago, and the answer given then seems as apropos to us today as it did at that time, and we commend it to the questioner as follows:

If a commission, composed of sincere, practical men, were appointed to investigate the greatest needs of Florida and to outline a policy for new-comers to pursue, they would report about as follows: First, the up-building of a system of good roads. This to be done as nearly as possible with the material at hand. Commencing at the county seat and branching out in several directions and extending to the lines of adjoining counties, a continuous system of roads could be built from one end of the State to the other. On the light, sandy lands, after all surface roots have been removed, pine straw from the adjacent forests could be placed in abundance. Then on the flatwoods—low lands—the surface soil from each side of the road could be thrown up, and something akin to turnpikes would thus be made. These would prove a blessing to man and beast alike, reducing the cost of transportation and time of transit, in consequence of the capacity of teams to pull greater loads and more quickly than upon the ordinary roads. These main arteries would give life to trade, open up new industries, stimulate producers to raise more of everything, and thus add to the wealth and prosperity of the State.

Stock, comprising cattle and a few hogs, and a quota of sheep and goats proportionate to the advantages of the locality, should be regarded as a most valuable adjunct of the farm.

The next wholesome advice would relate to crops, and the tiller of the soil would be given to understand that the first consideration should be given to those crops needed to meet the demand of man and beast upon the place, and that these could be best had by the planting of cassava, potatoes, velvet beans, peas, chufas, cane, and whatever of corn—Kaffir and Indian—sorghum and the various garden stuff that fancy might suggest and compatable with means to feel out for as promising profit. In this way a living would be assured and the knowledge acquired regarding the most profitable of the desirable crops. Of course, fruits of all kinds indigenous to the locality should receive favor upon the farm, and be diversified and enlarged upon commensurate with the size of the pocketbook and the safety of the investment as having been demonstrated by fruit-growers in the vicinity.

To recapitulate, good roads throughout the State, and the pursuing of a diversified, intensive system of farming, would, we believe, soon bring into demand every tillable acre of land, and, in consequence, add wealth and prosperity to the State at large.

WAR VERSUS PEACE.

The American plans at the Hague for a permanent court of arbitration failed by the vote of 9 to 5, England and Germany voting against the proposition. A compromise, or makeshift, proposed by England that the various governments should consider the matter and how best to overcome the difficulties that had baffled the Peace Conference was carried by 8 to 5. So the Peace Conference has been a failure, as everyone with a grain of sense knew it would be in advance of the meeting. What is the use of trying to agree on arbitration instead of war, when every country is straining its resources to build larger navies and keep up standing armies. The only chance for peace is to lick the fellow into submission that declares for war.

The Story of a Medicine.

Its name—"Golden Medical Discovery" was suggested by one of its most important and valuable ingredients—Golden Seal root.

Nearly forty years ago, Dr. Pierce discovered that he could, by the use of pure, triple-refined glycerine, aided by a certain degree of constantly maintained heat and with the aid of apparatus and appliances designed for that purpose, extract from our most valuable native medicinal roots their curative properties much better than by the use of alcohol, so generally employed. So the now world-famed "Golden Medical Discovery," for the cure of weak stomach, indigestion, or dyspepsia, torpid liver, or biliousness and kindred derangements was first made, as it ever since has been, without a particle of alcohol in its make-up.

A glance at the full list of its ingredients, printed on every bottle-wrapper, will show that it is made from the most valuable medicinal roots found growing in our American forests. All these ingredients have received the strongest endorsement from the leading medical experts, teachers and writers on *Materia Medica* who recommend them as the very best remedies for the diseases for which "Golden Medical Discovery" is advised.

A little book of these endorsements has been compiled by Dr. R. V. Pierce, of Buffalo, N. Y., and will be mailed *free* to any one asking same by postal card, or letter addressed to the Doctor as above. From these endorsements, copied from standard medical books of all the different schools of practice, it will be found that the ingredients composing the "Golden Medical Discovery" are advised not only for the cure of the above mentioned diseases, but also for the cure of all catarrhal, bronchial and throat affections, accompained with catarrhal discharges, hoarseness, sore throat, lingering, or hang-on-coughs, and all those wasting affections which, if not promptly and properly treated are liable to terminate in consumption. Take Dr. Pierce's Discovery in time and persevere in its use until you give it a fair trial and it is not likely to disappoint. Too much must not be expected of it. It will not perform miracles. It will not cure consumption in its advanced stages. No medicine will. It *will* cure the affections that lead up to consumption, *if taken in time.*

Collection of Licenses.

County Tax Collector W. D. Dickinson and City Tax Collector T. B. Ellis have been kept busy for the past two days collecting occupational taxes for the coming year and issuing receipts.

Collector Ellis states that he is experiencing less trouble in making collections this year than at any time since he has been in office. The people seem to pay with a willingness, which is indicative of the fact that they are prosperous and have no complaint to make.

Henry E. Jones of Tampa, Fla., writes: "I can thank God for my present health, due to Foley's Kidney Cure. I tried doctors and all kinds of kidney cures, but nothing done me much good till I took Foley's Kidney Cure. Four bottles cured me, and I have no more pain in my back and shoulders. I am 62 years old, and suffered long, but thanks to Foley's Kidney Cure I am well and can walk and enjoy myself. It is a pleasure to recommend it to those needing a kidney medicine. J. W. McCollum & Co.

J. Manasse has an advertisement in this issue, in which he states that on next Saturday he will give a grand feast of bargains in clothing, dry goods, shoes, hats, skirts, ladies' ready-to-wear goods, notions, etc., and will give ten per cent of that day's sales to the Orphanage Home in Arcadia. There are nine children from this county in the Orphanage Home, and Mr. Manasse's generosity is certainly to be appreciated. If you want to help a good cause, wait until this sale, go and spend your money with Mr. Manasse, and help both yourself and the Orphanage.

In most cases consumption results from a neglected or improperly treated cold. Foley's Honey and Tar cures the most obstinate coughs and prevents serious results. It costs you no more than the unknown preparations and you should insist upon having the genuine in the yellow package. J. W. McCollum & Co.

A contract for carrying trans-continental mail is to be let in the West, and the railroad presidents are tearing their linen in the efforts to beat each other in fast time. Yet the railroad presidents have been known to complain that carrying the mails was a losing game.

OKLAHOMA ELECTION PLEASES DEMOCRATS

Politicians Urge President Not To Admit State in Union.

THE PRESIDENT AFTER BEARS

After a Speech-making Tour He Will Invade the Cane-brake of Mississippi—Newsy Letter From the National Capital.

Special Correspondence The Daily Sun.

Washington, D. C., Oct. 1.—The result of the Oklahoma election, and the glorious Democratic victory, is of immense importance to the Democracy of the United States. Indeed it may change the result of the next National election. No wonder the Republican politicians are urging President Roosevelt to refuse to issue his proclamation admitting the State on the technical ground that the constitution as adopted does not provide a Republican form of government. But machine politicians are selfish and often shortsighted, and if the President should refuse to allow Oklahoma to be admitted he would raise an issue that would overshadow perhaps all other issues, namely, the right of the people to govern themselves without interference from the Federal Government; or the partisan scheming of interested politicians. To oppose the admittance of Oklahoma, because the Democrats have carried the election, would be viewed as a partisan effort, and enough voters in the close and doubtful States would show their displeasure to overwhelm the party that attempted it. The question of executive interference in home affairs has also been injected into the campaign in Cleveland by the letter of President Roosevelt to Mr. Burton advising him to run against Tom Johnson for mayor of that city on partisan grounds, but the Republicans appear to be already sick of that issue, and the 3-cent fare on street railroads will predominate.

President Roosevelt, after over three months' vacation, is off on his speech-making tour, and a trip down the Mississippi river. This is to be followed by a bear hunt of seventeen days in the swamps of Mississippi, which to a safe and sane man would be more feared at this time of the year than all other dangers for the cane-brakes are free breeders of fever and ague from which, let us hope the proverbial luck of the President will allow him to escape.

There is a recrudescence of frauds and grafting, for besides the Oregon and Idaho scandal for which United States Senator Borah is now on trial, other land frauds are reported in New Mexico, in which the late Republican governor is said to be implicated, and are reported to cover a vast acreage of the public land. A serious scandal is also reported in the War Department involving high officials in connection with appliances for launching life boats on army transports. Mayor Rathbone, who attained notoriety in connection with the Cuban postoffice frauds, appears to be mixed up in the matter, and it is stated by Captain Irvine that every effort to induce President Roosevelt to order an investigation has failed. What is this strange and occult influence that Mayor Rathbone appears to wield over his Republican associates who hold official positions? We will probably never know until there is a Democratic Congress to unravel it.

The Hague fiasco is the last we shall hear of international peace and arbitration for a long time, and the Roosevelt delegates will come home with no laurels, and the subject is a sore one in administration circles.

There is a general regret here among Democrats that any rivalry for the Democratic nomination for President should result in widening the breach in the ranks, or disheartening any faction who see fit to push the candidacy of any favorite. It is conceded that to win practically all Democrats must unite on the ticket that will be selected, and the united wisdom of the delegates from all States will be greater than the judgment of individuals, who are apt to be warped by their friendship for some particular man.

The declared intention of Mr. Hearst that he "will not run for President on the Independence League ticket, or on any other ticket," and the general tone of his statement just published, is viewed here with satisfaction, although there is a feeling that what he says is intended as a notification almost amounting to a threat that he will no longer continue to affiliate with the Democracy, but "will devote myself heart and soul to the organization and extension of the Independence League."

FURIOUS ITCHING HUMOR ON CHILD

Bleeding Sores Covered Her Whole Body After an Attack of Measles —Nursed Every Night for Three Weeks—Nothing Helped Her.

THEN CUTICURA MAKES COMPLETE CURE IN 5 DAYS

"It is in my opinion my duty to join those who praise the Cuticura Remedies. After my granddaughter of about seven years had been cured of the measles, she was attacked about a fortnight later by a furious, itching and painful eruption all over her body, especially the upper part of it, forming watery and bleeding sores, especially under the arms, of considerable size. She suffered a great deal and for three weeks we nursed her every night, using all the remedies we could think of. Nothing would help. We then remembered having heard so much about Cuticura Remedies. We sent for them and after twenty-four hours we noted considerable improvement, and, after using only one complete set of the Cuticura Remedies, in five consecutive days the little one, much to our joy, had been entirely cured, and has been well for a long time. Mrs. F. Ruefenacht, R. F. D. 3, Bakersfield, Cal., June 25 and July 20, 1906."

HUMOR ON FACE

Cured by Cuticura Remedies No Return in 20 Years.

"My son, when a lad of sixteen, was troubled with humor on his face and after using Cuticura Remedies he was freed from every humor and has continued so to the present time after twenty years have passed. Your Cuticura Soap has been used in my family for several years and I have faith in the Cuticura Remedies. A. H. Smith, Marion, Me., Dec. 1, 1905."

SERMONETTES

BY J. MARVIN NICHOLS

Elbert Hubbard declares that no one knows what power plants in the human mind the seeds of greatness. We like to think that great sons had great mothers, and that loving hearts endowed their offspring with their own rare natures. But there have been children of the world who surpassed fathers and mothers, who controlled heredity and environment and who in their bold undertakings turned instruction and defied all authority.

Nearly all the royalties of Europe could, if driven to it, earn their own living. The Queen of Roumania, Carmen Sylva, makes an income from her books that many authors cannot equal. The Emperor of Russia has a sweet and well-trained tenor voice. Had he not been of royal blood he would undoubtedly have succeeded in grand opera. The Queen of Italy is a linguist of unusual talent. She converses with ease in eight different languages. She could easily become a teacher of languages. The King of England is said to be one of the best judges of wines and cigars in the world. He could grow rich as an expert dealer in these luguries. The Queen of Portugal has a medical degree and could easily make her way as a doctor. The German Emperor could make a good living as a poet, a musician, an artist, a shipbuilder, a pottery manufacturer, a horse dealer, an actor, a bookbinder, a clergyman, a tailor, a sculptor, a barber, a farmer, or a dentist.

Another year may bring us to see the light that never was on land or sea. The uncertainties of life hasten us into the great unknown. Why not make it our business, then, to enrich the world? A flower, a kind word, a hearty greeting—how small they seem. And yet these are the little streams that swell the great river of life. And at last they shall come to the great, open sea with their rich cargoes of affection and beauty. The great painting enraptures us—we try to discover of the artist's dream. We overlook the little touches here, the delicate shadings there—the lights and shadows that brought it to its perfection. So it is in life. You will never see the grand climax if perchance you overlook these more minute details of life.

"They say!"—that phrase has blasted more character and wrecked more homes than any other in the language. Call a halt on the lecherous peddler who comes at you with his wares—"They say." Level your gun at his cowardly heart—fire point blank. Put it straight—"Who says?" It hits the spot. You can't afford to miss. The person who circulates a scandal or peddles truth (one is as good as the other) is a vampire. They suck life-blood. I offer no apology for gathering here a recent editorial expression in The Fort Worth Telegram. I wish it might be written on every heart with an iron pen. It declares that no combination of words in the language has caused more trouble, pain and sorrow than the phrase "They say." It hits in the dark. It is anonymous. It has no personality. It cannot suffer from any reaction. It is totally irresponsible. The phrase ought to be put under the ban. It is this way: You speak to someone of a mutual acquaintance. There is a shrug of the shoulders, or a lifting of the eyebrows. And the lowering of the voice, with the preface "They say." Even when the gossip fails to give his authority he has put an evil suggestion into your mind respecting the person he speaks of, a suggestion it is impossible to be rid of. The impression stays. The suspicion lurks. A great wrong is done. "They say." When the suggestion is dropped into eager ears, the assassination of character is begun when there is a willing mouth to give the message to other eager ears. What "They say" may sometimes be a true message. But is it a necessary message? Will it make the world better or worse by the telling of it? It is very plain that much suffering and sorrow might be prevented by cutting the ugly words clear out of the vocabulary. And let me add—if a man or woman won't cut the phrase out of their speech, you cut them out—and be quick!

"AUNT FLORA" IS DEAD.

One of Gainesville's Oldest and Most Widely Known Characters Gone.

From Tuesday's Daily Sun.

Flora Brooker, aged about eighty years, and more familiarly known throughout the city by old and young alike as "Aunt Flora," has passed to her reward beyond, having expired with a dropsical affection at her home on West Masonic street Monday morning.

"Aunt Flora" was one of the most widely known characters of the negro race of this section of the country. For fifty years or more she has been engaged as a nurse in Gainesville, and proved a most faithful and efficient servant. She had a heart full of devotion for the children, and was always alert to their comfort and convenience. Everybody knew and reverenced "Aunt Flora," and even up to a year ago, owing to devotion to babies and her ability to take care of them, her services were in demand.

But "Aunt Flora," who was one of those conscientious colored Christians which placed religion before everything, has passed over the river, and her memory will be reverenced by the hundreds of mothers who had confidence in her, in many instances the woman nursing both mother and child in the turn of a generation.

"Aunt Flora" will be given an impressive burial today, as her pastor, Rev. S. E. Huger, of Mt. Pleasant Methodist church, on Monday secured by subscription sufficient money to defray the expense of a casket, etc. The response was liberal, as the white friends of the deceased were desirous of knowing that the funeral was a decent one.

The funeral will be held at 9 o'clock today, Rev. Huger conducting the ceremonies. The interment will be in the colored cemetery, adjoining Evergreen.

A DASTARDLY OUTRAGE.

A Negro Boy Mistreats Two Little White Girls.

Two little white girls were on their way from North Gainesville to the city yesterday evening, when a negro boy ran into one of them with his bicycle and knocked her down. He then grabbed the other by the arm and tore the waist of her dress nearly off, when he remounted his wheel and rode off laughing. It would have fared badly with the boy had the relatives of the children been able to discover him, but the children were so frightened at the time that they could not tell who he was. A sharp lookout is being kept for him, however, and if he is positively identified the scoundrel will be severely punished.

Women Avoid Operations

MISS ROSE MOORE

When a woman suffering from female trouble is told that an operation is necessary, it, of course, frightens her.

The very thought of the hospital, the operating table and the knife strikes terror to her heart.

It is quite true that these troubles may reach a stage where an operation is the only resource, but a great many women have been cured by Lydia E. Pinkham's Vegetable Compound after an operation has been decided upon as the only cure. The strongest and most grateful statements possible to make come from women who by taking

Lydia E. Pinkham's Vegetable Compound

made from native roots and herbs, have escaped serious operations, as evidenced by Miss Rose Moore's case, of 307 W. 26th St., N.Y. She writes:-

Dear Mrs. Pinkham:-"Lydia E. Pinkham's Vegetable Compound has cured me of the very worst form of female trouble and I wish to express to you my deepest gratitude. I suffered intensely for two years so that I was unable to attend to my duties and was a burden to my family. I doctored and doctored with only temporary relief and constantly objecting to an operation which I was advised to undergo. I decided to try Lydia E. Pinkham's Vegetable Compound; it cured me of the terrible trouble and I am now in better health than I have been for many years."

This and other such cases should encourage every woman to try Lydia E. Pinkham's Vegetable Compound before she submits to an operation.

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. From the symptoms given, the trouble may be located and the quickest and surest way of recovery advised.

UNION ACADEMY OPENED.

Largest Enrollment Ever Known at Opening of the School.

Union Academy, which is the colored graded and high school of the city, and one of the best of its grade for colored children in the State, was formerly opened in its fall session Monday, with one of the greatest prospects of the times before it.

This school, which is under the charge and management of Prof. T. E. DeBose, with Prof. L. A. Artson as first assistant, opened with an enrollment of 350 pupils, which is the largest on record for any previous season. The faculty and pupils were very enthusiastic and propose to begin a term which will prove fruitful at the end.

There were also many parents of children present, and they also were very much encouraged over the prospects of the season. There was a most interesting program of a literary and musical nature, after which classes were formed, lessons assigned, and the school will get down to business this morning.

Profs. DeBose and Artson are both energetic and ambitious workers, and, with the assistance of the faculty, are determined to make a good showing at the end of the year.

PUTNAM IN DRY COLUMN.

Drys Win Out in That County by Good Majority—Palatka Votes Dry.

The wet and dry election in Putnam county, which occurred Monday after a vigorous campaign on the part of the dry forces, who were well organized, resulted in a victory for the drys, the majority being about 250. The city of Palatka, which gave a wet majority of 184 two years ago, at this election piled up fourteen majority for the dry side.

Information from Palatka states that indications point to the fact that every precinct in the county would go dry, although all returns had not been received at the time the letter was written.

JUDSON JOTTINGS.

Judson, Oct. 1.—R. S. Tucker went to Jonesville to R. P. Miller's yesterday. He brought Miss Estell Miller home with him to attend school here.

Dr. L. R. West made his regular round in Judson Saturday. He has just returned from Alberta, Ga., and the springs in North Carolina, where he has been for his health. He is improved wonderfully since he went away. He thinks he will soon return to finish his medical course.

The farmers are all feeling blue over their cotton, which is still in the fields. We have had so much rain that the cotton seeds are sprouted and are looking very bad.

The cotton crop is not moving much yet. The Farmers Union wants more for their cotton than the present price, and they think they will get it later.

BLEW UP EX-SHERIFF

Outrage Perpetrated In Oregon by Unknown Parties.

LIKE STEUNNENBURG AFFAIR

As Former Sheriff Brown Was Entering His Front Gate, Bomb Was Exploded, Blowing Off His Leg and Otherwise Maiming Him.

Baker City, Oreg., Oct. 2.—An attempt was made at 10:30 o'clock on Monday night to assassinate former Sheriff Harvey K. Brown at his home in this city by blowing him up with a dynamite bomb.

Mr. Brown is in the hospital, in a critical condition.

One of his legs was blown off, one of his arms badly mutilated, besides internal injuries, caused by the concussions.

The outrage is similar in manner of execution to that which resulted in the death of former Governor Frank Steunenberg at Caldwell, Idaho.

Mr. Brown was returning home and as he opened his gate the bomb exploded, wounding Mr. Brown and blowing out the windows of his house.

The explosion was heard in the center of the town half a mile away. The chief of police and county authorities are wholly unable to fathom any cause for the deed and they are also wholly unable to obtain any clew to the perpretrator of the crime.

Lay in Wait for Victim.

Portland, Oreg., Oct. 2.—A special from Baker City, Oreg., says:

Ex-Sheriff Brown, who was dynamited Monday night and just returned from a trip out of town to some mining property. He was found lying on the sidewalk several feet from the gate, the large posts were found blown to pieces and the fence shattered for some distance. The perpetrators left no trace of their deed except a wire which extended about 25 feet north along the fence and then went west about 30 feet to the middle of the road. It is presumed that the assassins were lying in wait for Mr. Brown and pulled the wire as he entered the gate.

Immediately after the explosion a neighbor of Mr. Brown's heard some men running north from the direction of the Brown house. It is thought that Mr. Brown had some idea of the identity of the assassins.

Mrs. Brown is prostrated by the shock, and the physicians fear she will not recover.

Mr. Brown, while sheriff of Baker county, was diligent in enforcing the law against saloon men and gamblers.

WAR IN TEXAS TOWN.

Gov. Campbell Asked for Rangers to Prevent Further Trouble.

Henderson, Tex., Oct. 2.—Two men have been killed and the town of Tatum, Tex., a small town near here, is in such a state of excitement, the outgrowth of a dispute between Cashier Hemby of the Tatum State bank, and Sam Helverston, the local freight agent, Saturday afternoon, that an appeal has been forwarded to Governor Campbell, asking that Rangers be sent to prevent further trouble.

The trouble originated in a controversy regarding the payment of a freight bill. Revolvers were drawn, and in a street battle Hemby was fatally wounded. Friends of the principals involved divided into factions and Monday a man named Adam was killed.

Suffers No More.

Parkersburg, W. Va., Oct. 2—Theodore Huff, aged 42, single, cut his throat with a razor, dying instantly. He left a note saying he had suffered all his life from an incurable disease and thought best to put an end to it all.

China a Constitutional Monarchy.

London, Oct. 2.—A special dispatch from Pekin says the dowager empress has issued a decree declaring the government of China a constitutional monarchy.

IRA CARTER'S MISFORTUNE.

Ankle Was Severely Sprained as Result of a Runaway Monday.

Ira J. Carter, one of Newberry's well-known young citizens, was a visitor to Gainesville Wednesday.

Mr. Carter seems to be a creature of misfortune, as far as receiving injuries by runaways in concerned. A few months ago in a runaway, he sustained a broken leg by being thrown from his buggy, which caused his confinement for several weeks. He was the victim of another runaway Monday, and in jumping from the vehicle in which he was riding one of his ankles was severely sprained.

Mr. Carter owns a fine farm midway between Newberry and Gainesville, and on this occasion was taking three double teams to the farm from Newberry to assist in harvesting his crop. In some manner the rear team became frightened and unmanageable, causing the teams in front to run away, and demolishing two wagons. Mr. Carter was leading the trail in a buggy, when one of the teams ran into the vehicle, upsetting it and frightening his horse.

A Reliable Seed Co.

Of the numerous seed stores throughout the State, it is safe to assert that the people of Gainesville and vicinity who have occasion to purchase seeds have, in the establishment of the Evans Seed Co., one of the most reliable in the country.

George Evans is known throughout the entire State as a seedman of superior ability, serving a number of years in learning the business. The public is now getting the benefit of these long years of study, and are so confident of his ability that it is never questioned.

Mr. Evans is assisted in the store by his son, George, Jr., who is also a practical man, having had the advantage of his father's instruction.

Seed from every package handled by this establishment are tested, which is another reason the planters and truckers have confidence in this company.

Wanted—Hardwood Timber.

The Brown-Jenings Hardwood Company of Lake Butler, Florida, are in the market for large quantities of hickory, white oak and ash timber.

They offer to buy it either in the log or sawed into plank. Now that the price of pine is off, this is an opportunity for sawmills to work on lumber in which there is a profit, as we are offering fancy prices for such lumber. This also affords the tie men, who are equipped with teams, a chance to get out logs at a good figure.

For full information regarding prices, etc., address

Brown-Jenings Hardwood Co.,
Lake Butler, Florida.

New School House.

C. C. Fletcher, a successful contractor of Bell, was in the city Tuesday on business connected with the school board.

IN MEMORIAM.

Beautiful Tribute Paid to Judge Stringfellow by Brother Masons.

Whereas, is has pleased Almighty God to remove from this life our friend and brother, Judge R. H. Stringfellow, and

Whereas, His untimely demise has cast sorrow over the entire community, a sorrow felt, indeed, by everyone who knew him, and

Whereas, We feel that in his death, the Masonic Fraternity, the State, the county and the community, have lost one of their best and most high-toned citizens; one in whom there was no guile; a man in whose bosom there pulsated sympathy and love for the whole human race; a man that even a little child could approach with impunity.

His was a noble life, full of generous acts.

He was never happier than when giving comfort and consolation to others.

His ever ready smile and cordial grasp of the hand, his patient face, his sympathetic eyes, we shall truly miss. He had, for years, been an intense sufferer, with neuralgia; yea, he suffered always, and at times, untold agonies; but he bore it without a murmur.

He was sixty-three years old and was a Mason for forty-one years.

He dearly loved the order, and was prominent in the administration of its affairs.

He was an officer during the greater part of the forty-one years of his connection with the order, and his death is a disitnct loss to the Masonic fraternity.

Desiring, even in an humble way, to pay a tribute of respect to his memory, we, the members of Hawthorn Lodge No. 103, F and A. M.,

Resolved: First, That we tender, to the family and relatives of our beloved brother, our most profound sympathy and condolence. We would point them to his spotless life, a rich heritage, indeed, and to the Great Architect of the universe, who in taking our brother to Himself, has only called him from labor to refreshment.

Resolved, Second, That these resolutions be spread upon the minutes of the lodge and that a copy be given to the family of our brother.

Resolved, Third, That a copy of these resolutions be sent The Gainesville Sun for publication.

Alas! our Brother, Alas! We shall never more behold thy face on this troublous earth, but with the hosts, eternal, who have joined the choir, innumerable, we shall meet thee and there with thee abide, in the lodge of the Most High God, not made with hands, eternal in the heavens.

JNO. D. TEETER, Secretary.

BETTER THAN MEDICINE.

Breathe Hyomei's Tonic Healing and Be Cured of Catarrh.

Nature has a remedy for catarrh, a treatment that is far better than dosing the stomach with medicine.

It is the healing oils and balsams of Hyomei which medicates the air you breathe, reaching the most remote air cells in the nose, throat and lungs, killing all catarrhal germs, and restoring health to the mucous membrane.

In using Hyomei you are treating your catarrhal troubles with the only natural remedy, for it gives a curative air bath to the air passages that has as powerful healing and antiseptic effect as that found in the mountains where the pine forests give off their fragrant and healing balsams.

Breathe the invigorating and healing Hyomei and see how quickly you will get relief from your catarrhal troubles. J. W. McCollum & Co. see so many cures, even of the worst cases of catarrh, with offensive breath, raising of mucous, frequent sneezing, dropping in the throat and spasmodic coughing, that they feel warranted in selling Hyomei under an absolute guarantee to refund the money if it does not do all that is claimed for it. They will take all the risk.

MR. STANFORD PROMOTED.

Will Be Chief of Field Staff of Ninth Division, U. S. Special Agents.

From Sunday's Daily Sun.

E. D. Stanford, special agent of the United States land office, who has made his headquarters in Gainesville for the past two or three years, has been promoted, which will be glad news to his numerous friends, although they will regret very much to lose him.

Mr. Stanford on Thursday received a telegram from General Land Commissioner R. Ballunger, Washington, instructing him to proceed to New Orleans, where he will assume charge as chief of field staff of the ninth division, comprising the States of Florida, Missouri, Arkansas, Alabama, Louisiana and Mississippi.

While Mr. Stanford regrets very much to leave Gainesville, he says it is a promotion which he cannot afford to pass by. It gives him not only more salary, but more prestige, and is a step higher in the land office work. Having the matter in his hands, however, he may decide to make his headquarters in Gainesville instead of New Orleans.

Mr. Stanford is quite popular, having been in public life for many years. He was at one time a member of the State Senate of North Carolina, and was for two terms journal clerk of the Senate of that State. He was afterwards elected State librarian, after which he served three years in the United States Treasury Department at Washington.

Returning to North Carolina, Mr. Stanford practiced law with great success, before entering the Land Department of the United States Government.

DEAD MAN BOUGHT PIANO

And Salesman Clinched Bargain Before Funeral Was Over.

The following anecdote, though a little grewsome, illustrates the extent to which some salesmen go to procure business, says The Delineator for October. It was recently related as actually occurring in Cincinnati, though we will not vouch for it:

"On his way to business, a piano man noticed crape on the door of a house, and, ascertaining from the neighbors that the head of the family had died, immediately called on the widow, and in condoling said:

"'And he was such a devoted husband! Only the day before his fatal illness, he visited my store and selected a piano to be sent to you as a present but, of course, this calamity has canceled the transaction.'

"Naturally the bereaved wife insisted upon owning this last token from the departed, no matter what the cost, and the enterprising salesman closed a profitable sale, though his whole story to her was, of course, a fake."

MICANOPY NEWS NOTES.

Micanopy, Sept. 30.—Mrs. Dr. Johnson and children have returned from St. Petersburg, where they have been on a summer vacation.

Mr. Melton and family reached home yesterday, after having spent several weeks at different summer resorts.

J. E. Thrasher, Jr., who met with a serious accident several months ago and had to go to Baltimore for treatment, came back Thursday. He seems to have recovered entirely, and is looking well. He was accompanied home by his sister, Rubie, and Miss Lola Maude Smith, who had been in Baltimore several weeks.

Mr. Thrasher is putting another addition to his immense store building.

A new fence has been put up at the Carolina House, and it adds very materially to the looks of the place.

DEATH OF MR. ELVINGTON.

Well-Known Levy County Man Passed Away in Gainesville Monday.

From Wednesday's Daily Sun.

James O. Elvington of Otter Creek died at the Odd Fellows' Sanitarium in this city at 8 o'clock Monday night of heart failure, brought about presumably by an attack of acute rheumatism which had troubled him for some time.

Mr. Elvington, whose home was at Otter Creek, where he has been for several years engaged in the naval stores business, was brought to Gainesville several weeks ago and placed in the hospital, where he has received the best of attention. Everything possible was done for him, but to no avail.

Deceased was a native of North Carolina, and was about 38 years of age. He was a man of excellent character, and was well liked by all who knew him.

The remains were taken Tuesday to Fair Bluff, N. C., where the interment will be held. They were accompanied by his father, Geo. W. Elvington, who was with him at the time of his death, T. W. Shands of this city, and J. S. Fisher of Otter Creek, with whom he was associated in business.

Deceased is survived by his parents, one brother and one sister, to whom the sympathy of the community and friends is extended.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address

E. D. Mr. Stanford, who is possessed of a most amiable disposition, has made many friends here who regret to see him leave. They have the consolation of knowing, however, that they will see him once in a while, as he has promised to make visits at regular intervals.

It may be that Mr. Stanford will make his headquarters here, as his territory will comprise six States.

DEATH OF MRS. MILLER.

Old and Highly Respected Lady Passed to Her Reward.

Mrs Jemima Miller, seventy-two years of age and one of the most beloved of the residents of the West End, died Saturday morning at 5 o'clock.

Deceased was born in Georgia, near Valdosta, but has been in this State and county for the past thirty years. She was a devout Christian, a member of the Christian church, and was active until prevented from active work on account of her advanced age.

The funeral was held Sunday, the interment being in Pine Grove cemetery, Elder Lindsay officiating. It was one of the largest attended funerals ever held in the county, nearly a thousand friends of the deceased coming from every section of the county.

Mrs. Miller is survived by four sons, W. H. Jones, G. W. Miller and D. P. Miller of Trenton, and M. I. Jones of this city, and four daughters, Mesdames Martha Prevatt of Valdosta, Ga., Harriet Atkins of Bell, and W. H. Everett and W. W. Weeks of Trenton, to whom the sympathy of the community is extended.

THE METHODIST CHURCH.

Four Accessions Made at Conclusion of Sunday Evening Service.

The services at the First Methodist church were well attended on Sunday evening, when the pastor, Rev. T. J. Nixon, delivered a most interesting sermon. Dr. Nixon is a preacher of great ability, always speaking with interest, and upon this occasion his hearers were deeply interested.

At the conclusion of the service four members were received into the church—three by letter and one by baptism and confession of faith. The service in all was a most enjoyable love feast, and those who attended were deeply impressed.

Pleasant Birthday Party.

R. T. Schafer, the well-known baker who owns and conducts the Keystone Bakery, North Gainesville, always did believe in something good to eat, especially on the occasion of his birthday.

Mr. Schafer observed this occasion on Sunday in the greatest style, as far as something to eat was concerned. It was his thirty-third year, and his good wife prepared a dinner of roast turkey and other things good enough for the gods. Only a few intimate friends outside the family were present, but the spread was thoroughly enjoyed, and late in the afternoon those who had been so fortunate as to sit around the festive board departed, wishing the hoast and his family many pleasant returns of the day.

GEORGE OLMSTEAD WANTS $40,000

Sustained Injuries in a Wreck on a Texas Railroad.

TRAIN WENT THROUGH BRIDGE

Mr. Olmstead Was the Conductor, and in His Allegations Sets Up That He Has Been Injured, Which Will Incapacitate Him for Duty.

G. P. Olmstead, formerly of this city and who is well known throughout this section of the country, was the victim of an accident in Texas, while serving as conductor of a freight train on the Beaumont, Sour Lake and Western railroad, in which he claims to have sustained serious injuries. Mr. Olmstead is now laid up in a hospital in San Antonia, Texas, and the following account of his misfortune, taken from The Houston Post of the 22d inst., will prove of interest to friends of the man here:

"G. P. Olmstead, who claims that he was precipitated in the San Jacinto river while acting as conductor of a work train, has filed suit in the district court against the Beaumont, Sour Lake and Western Railroad company to recover damages to the extent of $40,000.

"In the petition it is alleged that the bridge over San Jacinto river broke in two on July 15, 1907, permitting the train upon which the plaintiff was conductor to fall to the ground and into the bed of the river. As a result of the fall, Olmstead claims that a number of his ribs were broken and pressed in; that his chest has been lessened in size and his lung capacity decreased. He also claims that he received severe blows upon his sides, back, loins, head and other portions of his body, and that the lowest vertebra of the spinal column is broken."

SUNDAY SCHOOL CONVENTION.

Was Held With Baptist Church Here, and Was a Great Success.

The Sunday school convention of the Santa Fe River Baptist Association, which comprises all the churches in the Santa Fe river district, adjourned Sunday at noon, after a most pleasant and beneficial session lasting over Friday.

This association, which is an adjunct of the Baptist Church, is composed of Sunday school workers, and has regular meetings on each fifth Sunday. The convention of delegates from the various Sunday schools of the district come together for the good of Christ and the progress of the Sunday school, which accomplishes a great deal, giving the various Sunday schools an opportunity to exchange ideas and plans for the betterment and advancement of the work.

FATHER LYNCH IN TROUBLE.

Lost His Fine Fox Terrier, and Feels Very Badly About It.

Rev. P. J. Lynch, pastor of St. Patrick's Catholic church, and one of the most kindly-hearted men in this section of the country, feels badly because he has lost his companion, "Fido," an affectionate fox terrier which has followed him and proved a true friend, for some time. It was not exactly "Fido's" intention to leave his master, but somehow the animal strayed, and Father Lynch feels as bad about it as "Fido" must feel by this time.

"Fido" is a good and handsome dog. He has been admired by all lovers of good looking and intelligent canines, with the result that Father Lynch has got the sympathy of all dog admirers, and has got them all looking for "Fido."

The dog disappeared from home Saturday night, since which time nothing has been seen or heard of him. He is a fox terrier of medium build, white, one black ear, and the owner would very much appreciate any information leading to his recovery.

THE MOTHERS' MEETING.

Was Held at Home of Mrs. Pitts, and Was Well Attended Monday.

The Mothers' meeting was held at the home of Mrs. T. W. Pitts, 401 West McCormick street, Monday afternoon, and was well attended.

These meetings, which are held at regular intervals, are becoming more interesting and instructive at each session, and those who manifest an interest are receiving great benefit. The meetings are proving most beneficial and instructive each month.

The program Monday comprised a list of musical and literary numbers which were indeed entertaining, and which will not soon be forgotten by those who heard them.

During the afternoon Mesdames Pitts and O. P. Cannon, who shared honors in entertaining, served delicious refreshments, which it is needless to add were enjoyed.

In the Mayor's Court.

Butch Tisby was arraigned in the mayor's court Monday for the third time within a week upon a charge of gambling. Butch apparently loves the fascination of gambling to such an extent that it is hard for him to give it up. He was fined $10 and costs, but through his attorney, T. B. Ellis, Jr., appealed the case.

Sarah Rowe and Agnes Lenon, two dusky damsels of the Seaboard depot district, were arraigned for fighting, and were fined $5 and costs each.

John Woodson, for being drunk, was assessed a fine of $1 and costs.

ORANGES WILL BE SHORT.

Drought and Rain Combined Played Havoc With This Year's Crop.

Joseph J. Tinsley, representative of the E. R. Brackett Company, New York, and one of the most thoroughly posted commission men in the State, after spending two or three days with his wife and mother in this city, left for Palatka and other points Monday in the interest of his firm.

Mr. Tinsley states that the movement of the first crop of oranges will be on in good shape the latter part of October. This crop will be short, however, running from 600,000 to 700,000 boxes. The second crop will begin to move late in December. This crop will run two and a half to three million boxes, against about 4,000,000 last year, which shows that the crop will be away short.

Mr. Tinsley attributes this shortage to the drought, which was of great duration, and more recently to the excessive and continued rains throughout the country.

JURY LIST WAS DRAWN.

Clerk Wienges, Sheriff Fennell and Justice Colman Drew Names.

The list of thirty-six names, which comprises the panel for the coming fall term of the circuit court, which will convene in this city on November 11, has been drawn, Clerk S. H. Wienges, Sheriff L. W. Fennell and Justice Geo. M. Colman drawing the names from the box.

It has been the practice in nearly every county in the State to publish the names of those drawn as jurors in advance, but Clerk Wienges does not believe this to be the proper thing, as it invites the opportunity of schemers to interview the jurors and ascertain how they stand on certain matters which may be pending.

That Tired Feeling.

If you are languid, depressed, incapable for work, it indicates that your liver is out of order. Herbine will assist nature to throw off headaches, rheumatism and ailments akin to sourness and restore the energies and vitality of sound and perfect health. J. J. Hubbard, Temple, Texas, writes: "I have used Herbine for the past two years. It has done me more good than all the doctors. It is the best medicine ever made for chills and fever." 50c. Sold by W. M. Johnson.

Meeting of the Boards.

The Board of County Commissioners and the Board of Public Instruction held their regular monthly sessions Tuesday, and both were attended by every member.

Proceedings of the meetings will be given as soon as the same have been entered upon the minute-books.

LETTER TO E. C. CHITTY & SON,
Micanopy, Florida.

Dear Sirs: Here's a tale with a point to it. Florida is the hardest State in the Union for Paint.

Gilmore & Davis Co., Tallahassee, Florida, think they know what paint can do in their climate; they've been painting for 15 years, Devoe ten years; and they say Devoe wears 10 years—their words are: "Buildings we painted Devoe 10 years ago are in good condition of paint today."

They also say lead-and-oil wears only one year there. Devoe 10 years!

Ten years is a long lifetime for paint in Florida—longer than 20 in Maine. We don't dare say that either is true as a general fact in those States; but there are such instances.

If we should call the cost of Devoe in Florida half of the usual cost of paint, it would be too much; we suppose it's about one-third; there is so much trash there—the costliest paint is the worst, and the worst is the costliest everywhere.

Yours truly,
F. W. DEVOE & CO.

Deputy Sheriff W. M. Burch of Tacoma was in the city yesterday. He came for a negro who had been arrested here upon his instruction for some alleged offense near Micanopy, and took the prisoner back to Micanopy.

Mr. Tuten reports an abundance of rain in his section recently, which has had a tendency to injure the cotton crop materially, as the fields were white with the budding staple with no means of harvesting the output, as labor in the cotton fields is very scarce.

Dr. Lucretia Robb expects to return today after an absence of several weeks, during which time she has been in attendance upon lectures and clinics in Chicago and Denver, also visiting hospitals in these cities. May, the 14-year-old daughter of Mr. and Mrs. W. W. Weeks, died at the home of her parents in Judson yesterday morning, after a brief illness.

Deceased was a young lady of affectionate disposition, and was loved by a large circle of friends, who will learn of her death with deep regret.

The funeral will be held today, the interment being at Pine Grove cemetery.

THE VALUE OF PERSONAL KNOWLEDGE

Personal knowledge is the winning factor in the culminating contests of this competitive age and when of ample character it places its fortunate possessor in the front ranks of

The Well Informed of the World.

A vast fund of personal knowledge is really essential to the achievement of the highest excellence in any field of human effort.

A Knowledge of Forms, Knowledge of Functions and Knowledge of Products are all of the utmost value and in questions of life and health when a true and wholesome remedy is desired it should be remembered that Syrup of Figs and Elixir of Senna, manufactured by the California Fig Syrup Co., is an ethical product which has met with the approval of the most eminent physicians and gives universal satisfaction, because it is a remedy of

Known Quality, Known Excellence and Known Component Parts and has won the valuable patronage of millions of the Well Informed of the world, who know of their own personal knowledge and from actual use that it is the first and best of family laxatives, for which no extravagant or unreasonable claims are made.

This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to world-wide acceptance as the most excellent family laxative. As its pure laxative principles, obtained from Senna, are well known to physicians and the Well Informed of the world to be the best we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of—Syrup of Figs—and to get its beneficial effects, always note, when purchasing the full name of the Company—California Fig Syrup Co.—printed on the front of every package, whether you call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna.

When Marion county votes to prohibit the sale of liquor—and Old Marion will undoubtedly follow suit to Putnam—Alachua county will have no contiguous "wet" territory, as Clay county will certainly vote dry on the 8th day of October.

Hamilton and Franklin counties reported in the wet column, the former against prohibition by about 50 votes and the latter by 21. The prohibitionists worked zealously for victory, but the liquor element was too strong for them.

SUBVERTING THE CONSTITUTION.

In his recent speech at Jamestown, Judge Parker performed a great public service by analyzing the fundamental policy of the Roosevelt regime. He quoted from the text of the President's Harrisburg speech the words: "We need, through executive action, through legislative action and through judicial interpretation and construction of law, to increase the power of the Federal Government. If we fail thus to increase it we show our impotence." Judge Parker's principal objection to this revolutionary, not to say treasonable policy, was in substance that it is a brazen, unequivocal proposal to substitute for the constitution a government by commissions that in the end, through successive expansions of the commerce clause of the constitution, might cover almost every incident of productive and creative energy. Not by a constitutional amendment, but through the concerted action of the executive, the legislative and the judicial departments of the Federal Government. That it was, in other words, a proposal to change essentially the form of government in these United States by the creation of commissions empowered to deal judicially with special subjects; by the conferring upon the same commissions of legislative functions, through delegation of the power committed to Congress by the constitution; and finally by committing to the executive the unrestricted power of appointing and removing the members of such commissions; thus in practical effect concentrating in the hands of the executive alone unlimited power. Judge Parker has discovered the real issue upon which the next campaign must be fought, and he has presented it with a clearness which will command attention.

LOOKS LIKE STOCKTON.

Under the above caption The Tampa Tribune of last Sunday says editorially:

"He has friends without number in the State of Florida, has J. N. C. Stockton, and each and every one of them is enthusiastic in the wish that he enter the race for Governor in next year's primary election. And it certainly looks as though he would yield to the urgent appeals reaching him from every direction and announce himself ready to satisfy so universal a desire.

"It is perfectly safe to predict that should he run he would completely outstrip every other candidate who has so far declared himself. Mr. Stockton is justly regarded as one of the brainiest, most honest and most capable men in Florida. This is the opinion not of his intimate friends only. It is the general belief throughout the State. His popularity is not based on any peculiar animal magnetism, on any of the superficial charms of personality that often win admirers, on rare powers of social entertainment or gracious bonhommie, but is the result of an understanding by the people of the true worth of the man and his great fitness to fill the executive chair.

"The Tribune is free to confess that it has a great admiration for the subject of our remarks and fully realizes with the multitude that if elected Mr. Stockton would make a Governor who would give impartial and complete attention to all affairs of State and would do honor to the exalted office."

Frank S. Katzenbach of Trenton, N. J., who as mayor reformed that city and whom the Democrats of New Jersey have nominated for Governor, is forty years old, and has served two terms as mayor of Trenton. The Democrats hope to carry New Jersey this year.

QUESTIONS ANSWERED.

(From The St. Augustine Meteor.)

In a letter asking for a sample copy of The Meteor, a would-be settler asks these questions: "What does Florida stand most in need of and what would be the best procedure for a new-comer?"

We answered a similar question to this in The Datil Pepper, some ten years ago, and the answer given then seems as apropos to us today as it did at that time, and we commend it to the questioner as follows:

If a commission, composed of sincere, practical men, were appointed to investigate the greatest needs of Florida and to outline a policy for new-comers to pursue, they would report about as follows: First, the up-building of a system of good roads. This to be done as nearly as possible with the material at hand. Commencing at the county seat and branching out in several directions and extending to the lines of adjoining counties, a continuous system of roads could be built from one end of the State to the other. On the light, sandy lands, after all surface roots have been removed, pine straw from the adjacent forests could be placed in abundance. Then on the flatwoods—low lands—the surface soil from each side of the road could be thrown up, and something akin to turnpikes would thus be made. These would prove a blessing to man and beast alike, reducing the cost of transportation and time of transit, in consequence of the capacity of teams to pull greater loads and more quickly than upon the ordinary roads. These main arteries would give life to trade, open up new industries, stimulate producers to raise more of everything, and thus add to the wealth and prosperity of the State.

Stock, comprising cattle and a few hogs, and a quota of sheep and goats proportionate to the advantages of the locality, should be regarded as a most valuable adjunct of the farm.

The next wholesome advice would relate to crops, and the tiller of the soil would be given to understand that the first consideration should be given to those crops needed to meet the demand of man and beast upon the place, and that these could be best had by the planting of cassava, potatoes, velvet beans, peas, chufas, cane, and whatever of corn—Kaffir and Indian—sorghum and the various garden stuff that fancy might suggest and compatable with means to feel out for as promising profit. In this way a living would be assured and the knowledge acquired regarding the most profitable of the desirable crops. Of course, fruits of all kinds indigenous to the locality should receive favor upon the farm, and be diversified and enlarged upon commensurate with the size of the pocketbook and the safety of the investment as having been demonstrated by fruit-growers in the vicinity.

To recapitulate, good roads throughout the State, and the pursuing of a diversified, intensive system of farming, would, we believe, soon bring into demand every tillable acre of land, and, in consequence, add wealth and prosperity to the State at large.

WAR VERSUS PEACE.

The American plans at the Hague for a permanent court of arbitration failed by the vote of 9 to 5, England and Germany voting against the proposition. A compromise, or makeshift, proposed by England, that the various governments should consider the matter and how best to overcome the difficulties that had baffled the Peace Conference, was carried by 8 to 5. So the Peace Conference has been a failure, as everyone with a grain of sense knew it would be in advance of the meeting. What is the use of trying to agree on arbitration instead of war, when every country is straining its resources to build larger navies and keep up standing armies. The only chance for peace is to lick the fellow into submission that declares for war.

The Story of a Medicine.

Its name—"Golden Medical Discovery" was suggested by one of its most important and valuable ingredients — Golden Seal root.

Nearly forty years ago, Dr. Pierce discovered that he could, by the use of pure, triple-refined glycerine, aided by a certain degree of constantly maintained heat and with the aid of apparatus and appliances designed for that purpose, extract from our most valuable native medicinal roots their curative properties much better than by the use of alcohol, so generally employed. So the now world-famed "Golden Medical Discovery," for the cure of weak stomach, indigestion, or dyspepsia, torpid liver, or biliousness and kindred derangements was first made, as it ever since has been, without a particle of alcohol in its make-up.

A glance at the full list of its ingredients, printed on every bottle-wrapper, will show that it is made from the most valuable medicinal roots found growing in our American forests. All these ingredients have received the strongest endorsement from the leading medical experts, teachers and writers on Materia Medica who recommend them as the very best remedies for the diseases for which "Golden Medical Discovery" is advised.

A little book of these endorsements has been compiled by Dr. R. V. Pierce, of Buffalo, N. Y., and will be mailed *free* to any one asking same by postal card, or letter addressed to the Doctor as above. From these endorsements, copied from standard medical books of all the different schools of practice, it will be found that the ingredients composing the "Golden Medical Discovery" are advised not only for the cure of the above mentioned diseases, but also for the cure of all catarrhal, bronchial and throat affections, accompained with catarrhal discharges, hoarseness, sore throat, lingering, or hang-on-coughs, and all those wasting affections which, if not promptly and properly treated are liable to terminate in consumption. Take Dr. Pierce's Discovery in time and persevere in its use until you give it a fair trial and it is not likely to disappoint. Too much must not be expected of it. It will not perform miracles. It will not cure consumption in its advanced stages. No medicine will. It *will* cure the affections that lead up to consumption, *if taken in time.*

Collection of Licenses.

County Tax Collector W. D. Dickinson and City Tax Collector T. B. Ellis have been kept busy for the past two days collecting occupational taxes for the coming year and issuing receipts.

Collector Ellis states that he is experiencing less trouble in making collections this year than at any time since he has been in office. The people seem to pay with a willingness, which is indicative of the fact that they are prosperous and have no complaint to make.

Henry E. Jones of Tampa, Fla., writes: "I can thank God for my present health, due to Foley's Kidney Cure. I tried doctors and all kinds of kidney cures, but nothing done me much good till I took Foley's Kidney Cure. Four bottles cured me, and I have no more pain in my back and shoulders. I am 62 years old, and suffered long, but thanks to Foley's Kidney Cure I am well and can walk and enjoy myself. It is a pleasure to recommend it to those needing a kidney medicine. J. W. McCollum & Co.

J. Manasse has an advertisement in this issue, in which he states that on next Saturday he will give a grand feast of bargains in clothing, dry goods, shoes, hats, skirts, ladies' ready-to-wear goods, notions, etc., and will give ten per cent of that day's sales to the Orphanage Home in Arcadia. There are nine children from this county in the Orphanage Home and Mr. Manasse's generosity is certainly to be appreciated. If you want to help a good cause, wait until this sale, go and spend your money with Mr. Manasse, and help both yourself and the Orphanage.

In most cases consumption results from a neglected or improperly treated cold. Foley's Honey and Tar cures the most obstinate coughs and prevents serious results. It costs you no more than the unknown preparations and you should insist upon having the genuine in the yellow package. J. W. McCollum & Co.

OKLAHOMA ELECTION PLEASES DEMOCRATS

Politicians Urge President Not To Admit State in Union.

THE PRESIDENT AFTER BEARS

After a Speech-making Tour He Will Invade the Cane-brake of Mississippi—Newsy Letter From the National Capital.

Special Correspondence The Daily Sun.

Washington, D. C., Oct. 1.—The result of the Oklahoma election, and the glorious Democratic victory, is of immense importance to the Democracy of the United States. Indeed it may change the result of the next National election. No wonder the Republican politicians are urging President Roosevelt to refuse to issue his proclamation admitting the State on the technical ground that the constitution as adopted does not provide a Republican form of government. But machine politicians are selfish and often shortsighted, and if the President should refuse to allow Oklahoma to be admitted he would raise an issue that would overshadow perhaps all other issues, namely, the right of the people to govern themselves without interference from the Federal Government, or the partisan scheming of interested politicians. To oppose the admittance of Oklahoma, because the Democrats have carried the election, would be viewed as a partisan effort, and enough voters in the close and doubtful States would show their displeasure to overwhelm the party that attempted it. The question of executive interference in home affairs has also been injected into the campaign in Cleveland by the letter of President Roosevelt to Mr. Burton advising him to run against Tom Johnson for mayor of that city on partisan grounds, but the Republicans appear to be already sick of that issue, and the 3-cent fare on street railroads will predominate.

President Roosevelt, after over three months' vacation, is off on his speech-making tour, and a trip down the Mississippi river. This is to be followed by a bear hunt of seventeen days in the swamps of Mississippi, which to a safe and sane man would be more feared at this time of the year than all other dangers for the cane-brakes are free breeders of fever and ague from which, let us hope, the proverbial luck of the President will allow him to escape.

There is a recrudescence of frauds and grafting, for besides the Oregon and Idaho scandal for which United States Senator Borah is now on trial, other land frauds are reported in New Mexico, in which the late Republican governor is said to be implicated, and are reported to cover a vast acreage of the public land. A serious scandal is also reported in the War Department involving high officials in connection with appliances for launching life boats on army transports. Mayor Rathbone, who attained notoriety in connection with the Cuban postoffice frauds, appears to be mixed up in the matter, and it is stated by Captain Irvine that every effort to induce President Roosevelt to order an investigation has failed. What is this strange and occult influence that Mayor Rathbone appears to wield over his Republican associates who hold official positions? We will probably never know until there is a Democratic Congress to unravel it.

The Hague fiasco is the last we shall hear of international peace and arbitration for a long time, and the Roosevelt delegates will come home with no laurels, and the subject is a sore one in administration circles.

There is a general regret here among Democrats that any rivalry for the Democratic nomination for President should result in widening the breach in the ranks, or disheartening any faction who see fit to push the candidacy of any favorite. It is conceded that to win practically all Democrats must unite on the ticket that will be selected, and the united wisdom of the delegates from all States will be greater than the judgment of individuals, who are apt to be warped by their friendship for some particular man.

The declared intention of Mr. Hearst that he "will not run for President on the Independence League ticket, or on any other ticket," and the general tone of his statement just published, is viewed here with satisfaction, although there is a feeling that what he says is intended as a notification almost amounting to a threat that he will no longer continue to affiliate with the Democracy, but "will devote myself heart and soul to the organization and extension of the Independence League."

FURIOUS ITCHING HUMOR ON CHILD

Bleeding Sores Covered Her Whole Body After an Attack of Measles —Nursed Every Night for Three Weeks—Nothing Helped Her.

THEN CUTICURA MAKES COMPLETE CURE IN 5 DAYS

"It is in my opinion my duty to join those who praise the Cuticura Remedies. After my granddaughter of about seven years had been cured of the measles, she was attacked about a fortnight later by a furious, itching and painful eruption all over her body, especially the upper part of it, forming watery and bleeding sores, especially under the arms, of considerable size. She suffered a great deal and for three weeks we nursed her every night, using all the remedies we could think of. Nothing would help. We then remembered having heard so much about Cuticura Remedies. We sent for them and after twenty-four hours we noted considerable improvement, and, after using only one complete set of the Cuticura Remedies, in five consecutive days the little one, much to our joy, had been entirely cured, and has been well for a long time. Mrs. F. Ruefenacht, R. F. D. 3, Bakersfield, Cal., June 25 and July 20, 1906."

HUMOR ON FACE

Cured by Cuticura Remedies No Return in 20 Years.

"My son, when a lad of sixteen, was troubled with humor on his face and after using Cuticura Remedies he was freed from every humor and has continued so to the present time after twenty years have passed. Your Cuticura Soap has been used in my family for several years and I have faith in the Cuticura Remedies. A. H. Smith, Marion, Me., Dec. 1, 1905."

Complete External and Internal Treatment for Every Humor of Infants, Children and Adults consists of Cuticura Soap (25c.) to Cleanse the Skin, Cuticura Ointment (50c.) to Heal the Skin, and Cuticura Resolvent (50c.), in the form of Chocolate Coated Pills, 25c. per vial of 60, to Purify the Blood. SERMONETTES

BY J. MARVIN NICHOLS

Elbert Hubbard declares that no one knows what power plants in the human mind the seeds of greatness. We like to think that great sons had great mothers, and that loving hearts endowed their offspring with their own rare natures. But there have been children of the world who surpassed fathers and mothers, who controlled heredity and environment and who in their bold undertakings turned instruction and defied all authority.

Nearly all the royalties of Europe could, if driven to it, earn their own living. The Queen of Roumania, Carmen Sylva, makes an income from her books that many authors cannot equal. The Emperor of Russia has a sweet and well-trained tenor voice. Had he not been of royal blood he would undoubtedly have succeeded in grand opera. The Queen of Italy is a linguist of unusual talent. She converses with ease in eight different languages. She could easily become a teacher of languages. The King of England is said to be one of the best judges of wines and cigars in the world. He could grow rich as an expert dealer in these luguries. The Queen of Portugal has a medical degree and could easily make her way as a doctor. The German Emperor could make a good living as a poet, a musician, an artist, a shipbuilder, a pottery manufacturer, a horse dealer, an actor, a bookbinder, a clergyman, a tailor, a sculptor, a barber, a farmer, or a dentist.

Another year may bring us to see the light that never was on land or sea. The uncertainties of life hasten us into the great unknown. Why not make it our business, then, to enrich the world? A flower, a kind word, a hearty greeting—how small they seem. And yet these are the little streams that swell the great river of life. And at last they shall come to the great, open sea with their rich cargoes of affection and beauty. The great painting enraptures us—we try to discover of the artist's dream. We overlook the little touches here, the delicate shadings there—the lights and shadows that brought it to its perfection. So it is in life. You will never see the grand climax if perchance you overlook these more minute details of life.

"They say!"—that phrase has blasted more character and wrecked more homes than any other in the language. Call a halt on the lecherous peddler who comes at you with his wares—"They say." Level your gun at his cowardly heart—fire point blank. Put it straight—"Who says?" It hits the spot. You can't afford to miss. The person who circulates a scandal or peddles truth (one is as good as the other) is a vampire. They suck life-blood. I offer no apology for gathering here a recent editorial expression in The Fort Worth Telegram. I wish it might be written on every heart with an iron pen. It declares that no combination of words in the language has caused more trouble, pain and sorrow than the phrase "They say." It hits in the dark. It is anonymous. It has no personality. It cannot suffer from any reaction. It is totally irresponsible. The phrase ought to be put under the ban. It is this way: You speak to someone of a mutual acquaintance. There is a shrug of the shoulders, or a lifting of the eyebrows. And the lowering of the voice, with the preface "They say." Even when the gossip fails to give his authority he has put an evil suggestion into your mind respecting the person he speaks of, a suggestion it is impossible to be rid of. The impression stays. The suspicion lurks. A great wrong is done. "They say." When the suggestion is dropped into eager ears, the assassination of character is begun when there is a willing mouth to give the message to other eager ears. What "They say" may sometimes be a true message. But is it a necessary message? Will it make the world better or worse by the telling of it? It is very plain that much suffering and sorrow might be prevented by cutting the ugly words clear out of the vocabulary. And let me add—if a man or woman won't cut the phrase out of their speech, you cut them out—and be quick!

"AUNT FLORA" IS DEAD.

One of Gainesville's Oldest and Most Widely Known Characters Gone.

From Tuesday's Daily Sun.

Flora Brooker, aged about eighty years, and more familiarly known throughout the city by old and young alike as "Aunt Flora," has passed to her reward beyond, having expired with a dropsical affection at her home on West Masonic street Monday morning.

"Aunt Flora" was one of the most widely known characters of the negro race of this section of the country. For fifty years or more she has been engaged as a nurse in Gainesville, and proved a most faithful and efficient servant. She had a heart full of devotion for the children, and was always alert to their comfort and convenience. Everybody knew and reverenced "Aunt Flora," and even up to a year ago, owing to devotion to babies and her ability to take care of them, her services were in demand.

But "Aunt Flora," who was one of those conscientious colored Christians which placed religion before everything, has passed over the river, and her memory will be reverenced by the hundreds of mothers who had confidence in her, in many instances the woman nursing both mother and child in the turn of a generation.

"Aunt Flora" will be given an impressive burial today, as her pastor, Rev. S. E. Huger, of Mt. Pleasant Methodist church, on Monday secured by subscription sufficient money to defray the expense of a casket, etc. The response was liberal, as the white friends of the deceased were desirous of knowing that the funeral was a decent one.

The funeral will be held at 9 o'clock today, Rev. Huger conducting the ceremonies. The interment will be in the colored cemetery, adjoining Evergreen.

A DASTARDLY OUTRAGE.

A Negro Boy Mistreats Two Little White Girls.

Two little white girls were on their way from North Gainesville to the city yesterday evening, when a negro boy ran into one of them with his bicycle and knocked her down. He then grabbed the other by the arm and tore the waist of her dress nearly off, when he remounted his wheel and rode off laughing. It would have fared badly with the boy had the relatives of the children been able to discover him, but the children were so frightened at the time that they could not tell who he was. A sharp lookout is being kept for him, however, and if he is positively identified the scoundrel will be severely punished.

Women Avoid Operations

MISS ROSE MOORE

When a woman suffering from female trouble is told that an operation is necessary, it, of course, frightens her.

The very thought of the hospital, the operating table and the knife strikes terror to her heart.

It is quite true that these troubles may reach a stage where an operation is the only resource, but a great many women have been cured by Lydia E. Pinkham's Vegetable Compound after an operation has been decided upon as the only cure. The strongest and most grateful statements possible to make come from women who by taking

Lydia E. Pinkham's Vegetable Compound

made from native roots and herbs, have escaped serious operations, as evidenced by Miss Rose Moore's case, of 307 W. 26th St., N.Y. She writes:-

Dear Mrs. Pinkham:-"Lydia E. Pinkham's Vegetable Compound has cured me of the very worst form of female trouble and I wish to express to you my deepest gratitude. I suffered intensely for two years so that I was unable to attend to my duties and was a burden to my family. I doctored and doctored with only temporary relief and constantly objecting to an operation which I was advised to undergo. I decided to try Lydia E. Pinkham's Vegetable Compound; it cured me of the terrible trouble and I am now in better health than I have been for many years."

This and other such cases should encourage every woman to try Lydia E. Pinkham's Vegetable Compound before she submits to an operation.

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. From the symptoms given, the trouble may be located and the quickest and surest way of recovery advised.

UNION ACADEMY OPENED.

Largest Enrollment Ever Known at Opening of the School.

Union Academy, which is the colored graded and high school of the city, and one of the best of its grade for colored children in the State, was formerly opened in its fall session Monday, with one of the greatest prospects of the times before it.

This school, which is under the charge and management of Prof. T. E. DeBose, with Prof. L. A. Artson as first assistant, opened with an enrollment of 350 pupils, which is the largest on record for any previous season. The faculty and pupils were very enthusiastic and propose to begin a term which will prove fruitful at the end.

There were also many parents of children present, and they also were very much encouraged over the prospects of the season. There was a most interesting program of a literary and musical nature, after which classes were formed, lessons assigned, and the school will get down to business this morning.

Profs. DeBose and Artson are both energetic and ambitious workers, and, with the assistance of the faculty, are determined to make a good showing at the end of the year.

PUTNAM IN DRY COLUMN.

Drys Win Out in That County by Good Majority—Palatka. Votes Dry.

The wet and dry election in Putnam county, which occurred Monday after a vigorous campaign on the part of the dry forces, who were well organized, resulted in a victory for the drys, the majority being about 250. The city of Palatka, which gave a wet majority of 184 two years ago, at this election piled up fourteen majority for the dry side.

Information from Palatka states that indications point to the fact that every precinct in the county would go dry, although all returns had not been received at the time the letter was written.

JUDSON JOTTINGS

Judson, Oct. 1.—R. S. Tucker went to Jonesville to R. P. Miller's yesterday. He brought Miss Estell Miller home with him to clerk for him in his store.

Dr. J. R. Weeks made a business appearance in Judson Saturday. He has just returned from Atlanta, Ga., and the springs in North Carolina where he has been for his health. He is improved wonderfully since he went away. He thinks he will soon return to finish his medical course.

The farmers are all feeling blue over their cotton which is still in the fields. We have had so much rain that the cotton seeds are sprouted and are looking very bad.

The cotton crop is not moving much yet. The Farmers Union wants more for their cotton than the present price, and they think they will get it later.
